# SAFETY DATA SHEET

# 1. Identification of the material and supplier

Product name	: Air Wick Essential Oil Reed Diffuser Pear & Cinnamon
SDS #	: D8367652 v1.0L
Formulation #	: FF3098724 v1.0
Supplier	: AUSTRALIA RB (Hygiene Home) Australia Pty Ltd ABN: 58 629 549 506 680 George St , Sydney, NSW 2000 Tel: +61 (0)2 9857 2000
	NEW ZEALAND RB (Hygiene Home) New Zealand Limited Company number: 7097753 2 Fred Thomas Drive, Takapuna Auckland , New Zealand 0622 Tel: +64 9 484 1400
Poison Information contact:	: Australia - 13 11 26 New Zealand - 0800 764 766 or 0800 POISON
Material uses	<ul> <li>Products that serve to continuously odorize or deodorize indoor air, including diffuser products (excludes incense, and scented candles).</li> </ul>
UPC Code / Sizes	: Bottle with reed diffusers

# Section 2. Hazard(s) identification

Section 2. Hazard(s) identification			
Classification of the substance or mixture	:	Not classified.	
HSNO Classification		Not classified.	
GHS label elements			
Signal word	:	No signal word.	
Hazard statements	:	No known significant effects or critical hazards.	
Precautionary statements			
General	:	KEEP OUT OF REACH OF CHILDREN AND PETS.	
Prevention	:	Not applicable.	
Response	:	In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. If swallowed, seek medical advice immediately.	
Storage	:	Not applicable.	
Disposal	:	Not applicable.	
Supplemental label	:	Not applicable.	

Additional information: Avoid contact with eyes. May cause an allergic reaction in some individuals.Other hazards which do not: None known.

result in classification

elements

# Section 3. Composition and ingredient information

Substance/mixture

: Mixture

Ingredient name	% (w/w)	CAS number
Dipropylene glycol monomethyl ether	≥90	34590-94-8

Other Non-hazardous ingredients to 100%

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

# Description of necessary first aid measures Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower

, i i i i i i i i i i i i i i i i i i i	eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effe	
Eye contact	No known significant effects or critical hazards.
Inhalation	No known significant effects or critical hazards.
Skin contact	No known significant effects or critical hazards.
Ingestion	No known significant effects or critical hazards.
Over-exposure signs/sym	<u>S</u>
Eye contact	No specific data.
Inhalation	No specific data.
Skin contact	No specific data.
Ingestion	No specific data.
Indication of immediate me	attention and special treatment needed, if necessary
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	No specific treatment.
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

## Section 5. Fire-fighting measures

Extinguishing media		
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.	
Unsuitable extinguishing media	: None known.	
Specific hazards arising from the chemical	: No specific fire or explosion hazard.	
Date of issue	: 19/05/2021	Page: 2/9

# Section 5. Fire-fighting measures

Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide
Special exposure hazards	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.</li> </ul>
Special protective actions for fire-fighters	<ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>

# Section 6. Accidental release measures

Personal precautions, protect	equipment and emergency procedures	
For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training Evacuate surrounding areas. Keep unnecessary and unprotected personnel f entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.	
For emergency responders	f specialized clothing is required to deal with the spillage, take note of any nformation in Section 8 on suitable and unsuitable materials. See also the nformation in "For non-emergency personnel".	
Environmental precautions	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).	
Methods and materials for co	nment and cleaning up	
Small spill	Stop leak if without risk. Move containers from spill area. Dilute with water an up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via icensed waste disposal contractor.	,
Large spill	Stop leak if without risk. Move containers from spill area. Prevent entry into s water courses, basements or confined areas. Wash spillages into an effluent reatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous and place in container for disposal according to local regulations (see Section Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.	earth

See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

# Section 7. Handling and storage

#### Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

# Section 7. Handling and storage

Conditions for safe storage, including any incompatibilities
 Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

# Section 8. Exposure controls and personal protection

#### Control parameters

<u>Australia</u>

Occupational exposure limits

Ingredient name	Exposure limits
Dipropylene glycol monomethyl ether	Safe Work Australia (Australia, 4/2018). Absorbed through skin. TWA: 308 mg/m <sup>3</sup> 8 hours. TWA: 50 ppm 8 hours.

New Zealand

**Occupational exposure limits** 

: No exposure standard allocated.

Ingredient name	Exposure limits
(2-methoxymethylethoxy)propanol	NZ HSWA 2015 (New Zealand, 11/2017). Absorbed through skin. WES-TWA: 100 ppm 8 hours. WES-TWA: 606 mg/m <sup>3</sup> 8 hours. WES-STEL: 909 mg/m <sup>3</sup> 15 minutes. WES-STEL: 150 ppm 15 minutes.

Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker e contaminants.	xposure to airborne
Environmental exposure controls	:	Emissions from ventilation or work process equipment should b they comply with the requirements of environmental protection I cases, fume scrubbers, filters or engineering modifications to th equipment will be necessary to reduce emissions to acceptable	egislation. In some e process
Individual protection meas	ures		
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling cheme eating, smoking and using the lavatory and at the end of the wo Appropriate techniques should be used to remove potentially co Wash contaminated clothing before reusing. Ensure that eyewa safety showers are close to the workstation location.	rking period. ntaminated clothing.
Eye/face protection	:	Safety eyewear complying with an approved standard should be assessment indicates this is necessary to avoid exposure to liquid gases or dusts. If contact is possible, the following protection since unless the assessment indicates a higher degree of protection: side-shields.	uid splashes, mists, hould be worn,
Skin protection			
Hand protection	:	Chemical-resistant, impervious gloves complying with an appro- be worn at all times when handling chemical products if a risk a this is necessary.	
Body protection	:	Personal protective equipment for the body should be selected being performed and the risks involved and should be approved before handling this product.	
Other skin protection	:	Appropriate footwear and any additional skin protection measur selected based on the task being performed and the risks invol- approved by a specialist before handling this product.	
Date of issue		: 19/05/2021	Page: 4/9

## Section 8. Exposure controls and personal protection

Resp	iratory	protect	ion

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

Appearance		
Physical state	:	Liquid. [Clear.]
Color	:	Pale yellow to pale green
Odor	:	Not available.
Odor threshold	:	Not available.
рН		Not available.
Melting point	:	Not available.
Boiling point	:	Not available.
Flash point	:	Not available.
Evaporation rate	:	Not available.
Flammability (solid, gas)	:	Not available.
Lower and upper explosive (flammable) limits	:	Not available.
Vapor pressure	:	Not available.
Vapor density	:	Not available.
Relative density	:	Not available.
Solubility	:	Not available.
Solubility in water	:	Not available.
Partition coefficient: n- octanol/water	:	Not available.
Auto-ignition temperature	:	Not available.
Decomposition temperature	:	Not available.
Viscosity	:	Not available.
Flow time (ISO 2431)	:	Not available.
Aerosol product		

Aerosol product

## Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Acute toxicity

# Section 11. Toxicological information

#### Information on toxicological effects

Product/ingredient name	Result		Species		Dose		Exposure

# Section 11. Toxicological information

Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Symptoms related to the phy	sical, chemical and toxicological characteristics
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
Delayed and immediate effect	ts and also chronic effects from short and long term exposure
<u>Short term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health eff	<u>ects</u>
Not available.	
Conclusion/Summary	: Based on available data, the classification criteria are not met.
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
<b>Developmental effects</b>	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

#### Numerical measures of toxicity

Acute toxicity estimates

Not available.

## Section 12. Ecological information

#### **Toxicity**

Not available.

**Conclusion/Summary** : Based on available data, the classification criteria are not met.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Product/ingredient name	LogPow	BCF	Potential
Dipropylene glycol monomethyl ether	0.004	-	low

Date of issue

: 19/05/2021

# Section 12. Ecological information

#### Mobility in soil

Soil/water partition	
coefficient (Koc)	

: Not available.

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

#### Section 14. Transport information

	ADG	ADR/RID	IMDG	IATA
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-	-
Transport hazard class(es)	-	-	-	-
Packing group	-	-	-	-
Environmental hazards	No.	No.	No.	No.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

### Section 15. Regulatory information

Not scheduled	eduling of Medicines and Poisons <u>y Regulations - Scheduled Substances</u>
No listed substance	
Australia inventory (AICS)	: All components are listed or exempted.
New Zealand Inventory of Chemicals (NZIoC)	: All components are listed or exempted.
HSNO Group Standard	: Not applicable
HSNO Approval Number	: Not applicable
Approved Handler Requirement	: No.
Date of issue	: 19/05/2021

## Section 15. Regulatory information

Tracking Requirement : No.
