Air Purifier
WP-01**

Why Vitrality Australia?

At Vitrality Australia our aim is to provide Australian consumers and businesses with high quality innovative products

that improve the health such as our popular range of air purifiers that contain HEPA 13 hospital grade filters and our newest product, a small and compact dehumidifier that helps to prevent mould.

We are continually expanding our product range with wellness and health benefits at the forefront of our decision making. By purchasing a product from Vitrality you can be assured that our team have hand selected the perfect model in its class with the appropriate testing required.

Start your wellness journey with Vitrality today!

The WP-01

The WP-01 wall plug-in purifier is one of our small and portable units that can be used in a variety of spaces to provide you with clean fresh air throughout the day.

There are a variety of spaces where this handy little air purifier can be used such as kitchens, bathrooms, living rooms, bedrooms, offices, and nurseries. It is also portable enough to be packed and easily taken with you on holiday. As with all Vitrality air purifiers, the WP-01 comes with a medical-grade HEPA filter.

H13 HEPA filters remove 99.89% of airborne viruses

Quickly and effectively reduces pollutants in the air
