

Your partner for Specialist Disability Accommodation (SDA) solutions

The Bunnings Commercial team is here to service you from the front gate to the back fence. We are committed to bringing you the most trusted brands that specialise in products tailored specifically for individuals living with a disability and supportive of Specialist Disability Accommodation (SDA). Across all building stages we've got you covered for your SDA Fully Accessible projects.

With over 130 years of supplying building and hardware solutions, Bunnings can supply everything from timber frames and trusses, to flooring, joinery, kitchens, appliances, commercial grade windows, façades, plumbing, lighting and more to cover all elements of an SDA Fully Accessible design. We're much more than a supplier, we're your partner. In addition to all the specialist products required for an SDA build, we can also supply you with:

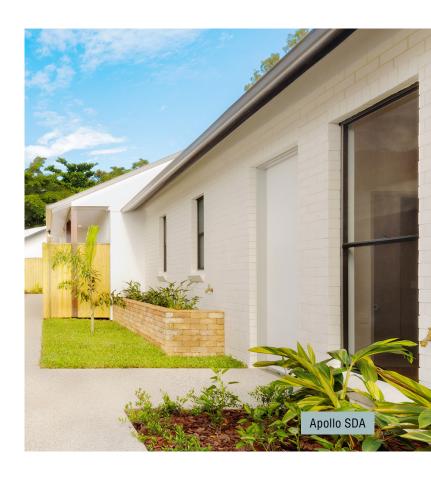

- Foundations and Footings
- **Windows**
- External Cladding
- Roofing
- Insulation

- Heating, Cooling and Ventilation
- Hot Water solutions
- Outdoor Timber
- Fencing
- Fasteners and Fixings

Leading Brands

fienza

Established in 2009, Fienza is a leading Australian brand that aims to be known for beautiful, quality products that are backed by industry leading warranties. They provide a range of functional and stylish solutions for bathroom accessibility, offering a broad selection of products meeting crucial AS 1428.1 requirements. Choose from a variety of finishes to create an elegant and sophisticated bathroom space with Fienza products.

Bradley

For the past 60 years, Bradley Australia have manufactured and supplied a comprehensive range of high-quality, competitively priced accessible washroom accessories across a variety of industries. Their products all comply with the relevant codes including AS1428. Durability, design and attention to detail, combined with easy installation, make choosing Bradley not just the right choice for your project but for your business and bottom line.

Beuro appliances

Euro Appliances and the Eurostyle Group is an Australian owned and operated company, established in 2002. Since then, the Euro brand has continually evolved to become a household name within the appliance industry. All their appliances are covered by a three-year full parts and labour warranty. Euro Appliances aim to always provide a high standard of customer assistance, with an Australian based service team that can assist with any information or queries regarding their products.

Livigy have developed Bunnings exclusive packages of Smart Assistive Technology to cater to various needs, offering scalability and adaptability. From basic setups for essential assistance to advanced systems for enhanced support and automation, their products can be seamlessly integrated and upgraded. Each pack is sold pre-configured, with 24/7 phone support for remote commissioning and available installation services for a hassle-free setup.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE AT BUNNINGS

Responsible sourcing

At Bunnings, we're committed to ensuring the products we sell, come from legal and sustainable operations, with good working conditions and fair treatment of people. As such, we continue to pursue sustainability by striving to make them socially responsible, environmentally aware and economically viable.

Sustainability

We are also committed to helping customers live more sustainably, and we are proud of the role we play in supporting local communities to make a positive difference. We recognise that our business plays an important role in reducing carbon emissions and addressing climate change. We have a comprehensive roadmap in place to reduce our energy consumption and to transition towards using more renewable energy sources.

In our Community

Bunnings is committed to participating in the communities in which we operate by contributing to local, regional and national causes, charities and organisations throughout Australia and New Zealand. We provide ongoing assistance to a wide range of local community groups including schools, sporting clubs and service clubs.

Fully Accessible

Specialist Disability Accommodation (SDA) with the design category of **Fully Accessible** is designed for individuals with significant physical impairments, or very high support needs. This accommodation type is tailored for people with different physical abilities, such as those who may use a wheelchair.

Fully Accessible dwellings include features that focus on ease of navigation and use, such as wide doorways, ramps instead of stairs, handrails, and accessible bathroom facilities. Additionally, they may be equipped with features that support the physical needs of the occupants, such as adjustable kitchen benches, emergency call systems, and spaces that allow for the use of assistive devices like hoists.

The goal of SDA built to Fully Accessible standards, is to create an environment that aims to enhance the life of its residents through comfortable, safe and empowered living.

When building to the SDA Fully Accessible standards, additional consideration will need to be given to the selection of many materials and products, including:

- · Wall coverings
- Entry ways, doors and door furniture
- Front-of-wall plumbing and tapware
- · Electrical and light switches
- Adjustable joinery and benchtops
- Appliances

INTRODUCTION

The SDA Design Standard specifies the following requirements for Kitchens and Laundries in Fully Accessible builds:

- Kitchen with a fixed cooktop with compliant features and rangehood, an in-built oven with compliant features, a sink with tap and a drawer style dishwasher
- Kitchen benchtops must meet accessible requirements and include one height-adjustable benchtop surface
- Kitchen sink tapware to be lever or sensor type
- D-pull cupboard handles located towards the top of below-bench cupboards and towards the bottom of overhead cupboards
- Laundry with a sink or tub with sensor type or lever style taps

The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

AUTOMATED ACCESS

INTRODUCTION

The SDA Design Standard specifies the following door and door hardware requirements for Fully Accessible builds:

- Doorways should have a minimum opening clearance of 900mm with AS1428.1 compliant door handles installed at between 900mm to 1100mm above the finished floor level
- All internal doorways should have a level, step-free transition and threshold (maximum vertical tolerance of 3mm vertical or 5mm between abutting surfaces is allowable provided the lip is rounded or bevelled)
- Door automation can be provided in lieu of door circulation spaces that are required as per AS1428.1 to the latch side of the door

The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.
