ONE+ 18V HP™ Brushless Pruning Saw

★★★★★ 5.0 | 2 Reviews
2 out of 2 (100%) reviewers recommend this product

Prune branches up to 145mm diameter with the RYOBI 18V ONE+ HP™ Brushless 6" (15cm) Pruning Saw.

The Pruning Saw's compact and ergonomic design make it easy to prune trees and shrubs at all angles. It's also great for camping and 4WD-ing – making firewood or clearing tracks of overhanging branches.

The Pruning Saw's powerful HP™ brushless motor generates a 6m/s chain speed, which efficiently cuts through branches up to 100mm in diameter.

Its pivoting chain and bar guard provides added user protection.

The load-sensing LED communicates when the Pruning Saw is operating at its optimum level. Make quick and easy chain tensioning adjustments with tool-free tensioning.

This Pruning Saw is part of RYOBI's ONE+ HP™ series of tools that utilise advanced technologies, like brushless motors that deliver higher performance, extended battery runtimes and longer motor life. These tools are ideal for tough conditions and larger gardens with mature plants. And yet they still use ONE+ 18V batteries. They also have superior ergonomics for a premium user experience.

Chain and bar oil sold separately... [Show Less](#)

- KEY FEATURES**
- HP™ Brushless motor
 - 6" (150cm) bar length, up to 145mm cutting capacity
 - Pivoting chain and bar guard
 - Tool-less chain tensioning changes

FEATURES

HP™ Brushless Motor

This Pruning Saw is part of the RYOBI ONE+ HP™ series of tools that deliver higher performance, extended battery runtimes and longer motor life.

Motor image shown is used for illustrative purposes only and may not be the actual motor from this product.

6"/15cm bar length

Great for getting into tight spaces. Cut branches up to 145mm diameter

Pivoting chain and bar guard

An added layer of protection for users when pruning at challenging angles.

Tool-less chain tensioning

No need for tools (that are easy to lose) - keep the chain tensioned for optimum cutting performance and safety.

Load-sensing LEDs

Indicates when pruning saw is operating at its optimum level.

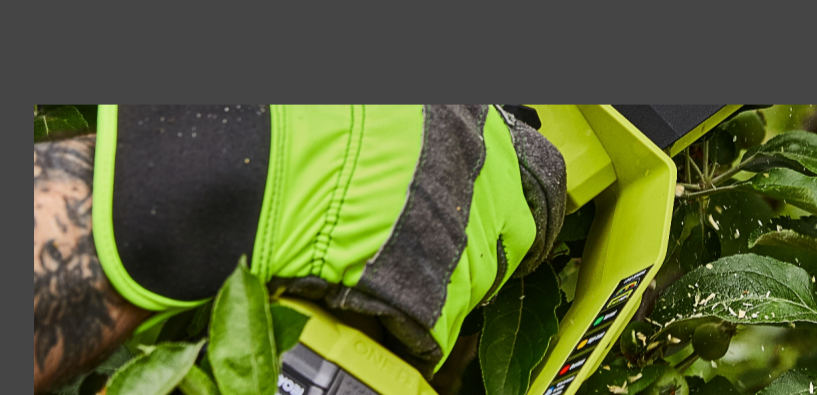

6m/sec chain speed

Ideal speed for pruning, trimming and shaping mature plants.

Lightweight

Light weight (1.3kg tool only) for greater manoeuvrability.

Battery compatibility

One of more than 120 tools on the 18V ONE+ battery system.

SPECIFICATIONS

Motor	18V HP™ Brushless
Bar length	6" (15cm)
Chain speed	6m/s
Weight (tool only):	1.3kg
