Accommodation (SDA)
**Fully Accessible
Design Product
Solutions**

Your partner for Specialist Disability Accommodation (SDA) solutions

The Bunnings Commercial team is here to service you from the front gate to the back fence. We are committed to bringing you the most trusted brands that specialise in products tailored specifically for individuals living with a disability and supportive of Specialist Disability Accommodation (SDA). Across all building stages we've got you covered for your SDA Fully Accessible projects.

With over 130 years of supplying building and hardware solutions, Bunnings can supply everything from timber frames and trusses, to flooring, joinery, kitchens, appliances, commercial grade windows, façades, plumbing, lighting and more to cover all elements of an SDA Fully Accessible design. We're much more than a supplier, we're your partner. In addition to all the specialist products required for an SDA build, we can also supply you with:

- ✓ Foundations and Footings
- ✓ Windows
- ✓ External Cladding
- ✓ Roofing
- ✓ Insulation
- ✓ Heating, Cooling and Ventilation
- ✓ Hot Water solutions
- ✓ Outdoor Timber
- ✓ Fencing
- ✓ Fasteners and Fixings

Member of the SDA Alliance

As a national peak body, the SDA Alliance represents SDA market participants across the country. We aim to drive better housing outcomes for people with disability that enhance independence, wellbeing, and quality of life. Our members include SDA providers, institutional investors, developers, builders, financial institutions, allied health professionals and industry consultants. Our members make a significant impact on the lives of people with disability- by providing housing that is safe, innovative and designed to serve the the needs of SDA participants.

Leading Brands

Nero

Nero have collaborated with Australian designers from Avail Designs to create a range that are both compliant to Australian Standards and fit in with the latest Australian bathroom design trends. Suitable for AS1428.1 compliant accessible bathrooms, private homes or public bathrooms.

The ultimate solution for safe, stylish disability care bathroom accessories. With unbeatable strength, modern design and easy installation, Mecca Care products offer unparalleled safety and dignity for individuals with disabilities.

omega

Starting in a Sydney garage in 1981, Omega quickly gained a reputation for high levels of service and product quality. To this day these remain the cornerstone of Omega Appliances.

Today, the Omega aim is to enhance your life by transforming your kitchen and laundry into stylish environments where any task is simple, satisfying and enjoyable. That's why each Omega product is both a statement to superb design as well as a testament to easy-to-understand functionality. Each product has been designed to fit the modern Australian lifestyle and aesthetic.

Environmental, Social and Governance at Bunnings

Responsible sourcing

At Bunnings, we're committed to ensuring the products we sell, come from legal and sustainable operations, with good working conditions and fair treatment of people. As such, we continue to pursue sustainability by striving to make them socially responsible, environmentally aware and economically viable.

Sustainability

We are also committed to helping customers live more sustainably, and we are proud of the role we play in supporting local communities to make a positive difference. We recognise that our business plays an important role in reducing carbon emissions and addressing climate change. We have a comprehensive roadmap in place to reduce our energy consumption and to transition towards using more renewable energy sources.

In our Community

Bunnings is committed to participating in the communities in which we operate by contributing to local, regional and national causes, charities and organisations throughout Australia and New Zealand. We provide ongoing assistance to a wide range of local community groups including schools, sporting clubs and service clubs.

Fully Accessible

Specialist Disability Accommodation (SDA) with the design category of **Fully Accessible** is designed for individuals with significant physical impairments, or very high support needs. This accommodation type is tailored for people with different physical abilities, such as those who may use a wheelchair.

Fully Accessible dwellings include features that focus on ease of navigation and use, such as wide doorways, ramps instead of stairs, handrails, and accessible bathroom facilities. Additionally, they may be equipped with features that support the physical needs of the occupants, such as adjustable kitchen benches, emergency call systems, and spaces that allow for the use of assistive devices like hoists.

The goal of SDA built to Fully Accessible standards, is to create an environment that aims to enhance the life of its residents through comfortable, safe and empowered living.

When building to the SDA Fully Accessible standards, additional consideration will need to be given to the selection of many materials and products, including:

- Wall coverings
- Entry ways, doors and door furniture
- Front-of-wall plumbing and tapware
- Electrical and light switches
- Adjustable joinery and benchtops
- Appliances

*The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

DOORS & DOOR HARDWARE

Introduction

Entrance Doors

External Doors

Internal Doors

Door hardware

Introduction

The SDA Design Standard specifies the following door and door hardware requirements for Fully Accessible builds*:

- Doorways should have a minimum opening clearance of 900mm with AS1428.1 compliant door handles installed at between 900mm to 1100mm above the finished floor level
- All internal doorways should have a level, step-free transition and threshold (maximum vertical tolerance of 3mm vertical or 5mm between abutting surfaces is allowable provided the lip is rounded or bevelled)
- Door automation can be provided in lieu of door circulation spaces that are required as per AS1428.1 to the latch side of the door

The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

FLOOR & WALL LININGS

Introduction

Floor Tiles

Vinyl Flooring

Wall Linings

Introduction

The SDA Design Standard specifies the following requirements for flooring in Fully Accessible builds*:

- All flooring for bathrooms, kitchens and laundries must be tested to a minimum slip resistance rating of P3 or R10
- Carpeting must meet a requirement of a maximum total height of 15mm

The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

ELECTRICAL

Introduction

Switches

Lighting

Inline Exhaust Fans

Introduction

The SDA Design Standard specifies the following Electrical requirements for Fully Accessible builds*:

- Light and power outlet switches should be rocker action, toggle or push pad with a minimum width of 35mm
- Dimmable lighting switches should be provided in living areas and bedrooms
- Task lighting should be provided above workspaces. A minimum level of 300lux should be achieved when tested at maximum intervals of 1500mm, directly over the surface of the benchtops

*The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

Switches

KITCHEN AND LAUNDRY

Introduction

Tapware

Sinks

Appliances

INTRODUCTION

The SDA Design Standard specifies the following requirements for Kitchens and Laundries in Fully Accessible builds*:

- Kitchen with a fixed cooktop with compliant features and rangehood, an in-built oven with compliant features, a sink with tap and a drawer style dishwasher
- Kitchen benchtops must meet accessible requirements and include one height-adjustable benchtop surface
- Kitchen sink tapware to be lever or sensor type
- D-pull cupboard handles located towards the top of below-bench cupboards and towards the bottom of overhead cupboards
- Laundry with a sink or tub with sensor type or lever style taps

The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

Tapware
