<b>Distance B:</b>

### How to specify custom panels to suit sloping ground

When you have sloping ground you may wish to have panels custom made to follow the fall of the land, rather than stepping "square" panels down.

Specifying raked panels is a simple process, all you need is a string line, spirit level, and 2 star pickets .

Use star pickets to mark start and end point for fence.

Run a level string, from ground level of the highest picket and tie to end picket.

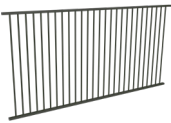

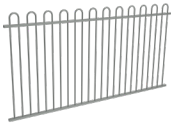

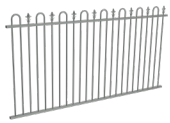

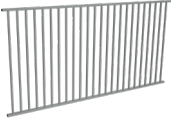

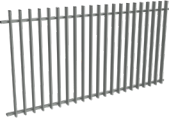

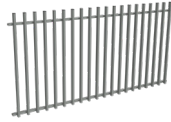

Measure the distance between pickets (A), and the fall from string level to ground (B)

**Complete this info sheet and take to Bunnings Special Orders Desk.**

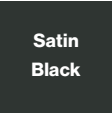

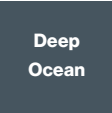

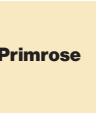

### Select Fence Height (tick box)

- 900mm  
*Garden Fence only*
- 1200mm
- 1500mm
- 1800mm

### Select your profile
