400mm Wall Hung Vanity with Basin Installation Guide

Step 1

Step 2

Pre-installation checks

STOP! - PLEASE READ BEFORE INSTALLING

Read all installation instructions before starting. If this product is not installed correctly, the warranty may be void.

- **This product must be installed by a licensed tradesperson.**
- **All plumbing must be installed by a licensed plumber.**
- **Under no circumstances should vanities and/or basins be tiled into the wall.**
- **This product must not be installed in an area where it may be exposed to splashing water from a bath or shower.**

NOTE: *If you desire the door to swing open in the other opposite direction, then uninstall door from factory set position and install on opposite side using pre-drilled holes.*

CARE & MAINTENANCE

- The cabinet is moisture resistant, not waterproof. Damage may occur if the cabinet is exposed to water for extended periods of time. Excess water should be wiped dry at the earliest opportunity. Ensure the bathroom has adequate ventilation to prevent moisture build up.
- Be mindful of sharp objects that may scratch or damage the surface. Do not tap objects such as shaving razors or toothbrushes etc., against the basin.
- Clean with a soft cloth and warm water or a mild detergent. Do not use abrasive cleaners or harsh chemicals. Ensure cabinet is adequately dried after cleaning. Avoid leaving toothpaste or other bathroom products' residues on the surface for extended periods.

Acids may cause irreversible damage.
Acids are present in many common products, including but not limited to: toothpaste, soaps, coffee, cosmetics and harsh chemical cleaners or bleaches. Cups, bottles or cans could leave residues that will etch into the vanity top material and cannot be removed.
Placing hot items such as hair irons, hair dryers or other heated appliances on the surface can also cause damage. Stains caused by acids or heat are not covered by warranty.

The warranty will be void if the product is damaged during shipping, delivery or installation, or as a result of misuse, negligence, improper installation or connection, inadequate or improper maintenance, abuse or misuse.

Step 3
