

# TOILET SEAT INSTALLATION INSTRUCTIONS

INS 147 V1

## INSTALLATION INSTRUCTIONS:

1. Confirm you have received all components.
2. Insert components 6, 5, 4 & 3 into the pan as shown in diagram 2. Note - Don't install component 2 (cover plate) at this stage.
3. Lightly tighten the components into position with the provided allen key. It's important that you don't over tighten at this point.
4. Install the seat & align into position.
5. Remove the seat and tighten the screws firmly.
6. Install the cover plate (2) onto the other components.
7. Install the seat.

## NOTE:

1. After installation check if the seat & cover are firmly fixed.
2. Never use harsh detergents or abrasive cleaners, as these will scratch the surface. Using a soft dry cloth or a soft cloth with warm soapy water is recommended.
