TRANSFORMING ELECTRICAL

2023 PRODUCT CATALOGUE

DETA WIRING ACCESSORIES - DESIGNED TO MEET CHANGING MARKET NEEDS
CHANNELING GROWTH AND EVOLUTION THROUGH EXISTING AND NEW PRODUCTS

Established in the late 1950's, DETA offers best-in-class solutions for the electrical market with a range of innovative and versatile wiring accessory products.

DETA aligns with changing market demands and develops new products in accordance with local and international market trends.

All the wiring accessories at DETA are competitively priced. DETA provides diverse varieties of ultra-modern, elegantly styled products, suitable for both domestic and commercial environments. Ease of use is the fundamental idea behind the design of wiring accessories.

Products in the wiring accessory category are subject to stringent product designs and standards. Designing and maintaining high quality and compliant products is of paramount importance to the brand. DETA puts its best foot forward through a team of professionals who have significant expertise and experience in product design and development.

DETA products meet all requirements of the Australian and New Zealand electrical safety standards and approvals. All manufacturing is carried out in a strict quality controlled environment.

The company's considerable investment program extends beyond product development in achieving our main objective of real customer satisfaction.

An integral part of DETA's innovation is demonstrated through continuous development, monitoring, and delivery of customer service programs. This practice has helped the brand understand the customer demands and needs effectively.

DETA is proud to be part of the Australian and New Zealand industries offering quality products at competitive prices and backed by trade expertise and friendly customer service.

CONTENTS

TOUCH SERIES

GRID CONNECT USES A SINGLE APP TO DELIVER SEAMLESS, MULTI-PRODUCT HOME AUTOMATION ON YOUR SMARTPHONE OR TABLET.

- Manufactured from engineered grade UV stabilized plastic materials
- Wall switches and sockets are retrofittable and compatible with standard mounting accessories
- GRID CONNECT APP available on Apple app store and Google play store
- Supports Google Assistant and Amazon Alexa
- Uses your home Wi-Fi or mobile internet connection to control, customise and automate the product

6893B	IP54 10A outdoor single power point rhodium plated	AUS 4331293 NZ 4331293
6894B	IP54 10A outdoor double power point rhodium plated	AUS 4331292 NZ 4331292

THE ADVANTAGES OF RHODIUM PROTECTION

High Performance
Rhodium provides the best possible contact surface for maximum power transfer due to its extremely low resistance to the flow of electricity.

Resistance
Rhodium will not tarnish, oxidise or corrode, ensuring a stable and reliable surface for electrical connection.

Hard Wearing
Rhodium is a very hard, dense and chemically inert metal.
It is unaffected by moisture or oxygen.

Rhodium plated for high performance

PVC ELECTRICAL INSULATION TAPE AND ACCESSORIES

600V RATED PVC INSULATION TAPE
- Flame retardant and standard PVC insulation tape
- 0.18mm thick
- UL listed and safety approved PVC insulation tape
- PVC insulation tape are UV resistant and cold resistant
- PVC insulation tape suitable up to 80°C
