# EzyONE Mini

## 6 Station Indoor Irrigation Controller

The EzyOneMini is a 6 station Indoor Irrigation Controller. Take full control of up to 6 stations with an easy to ready Digital LCD Display. Easy to program with 3 starts per station, seasonal adjustment and a 7 day scheduled watering. This controller can be programmed to meet water restrictions, so you can take the worry out of watering.

### Features:

- ✓ **Control up to 6 valves** manually and with schedules with up to 3 start times per station
- ✓ **Long run times** up to 255min (4hr 15min) in 1min increments
- ✓ **7 Day watering** individual 7 day selection per start time
- ✓ **Water saver feature** allows quick adjustment of station run times by percentage
