WIFI QUICK SET-UP GUIDE

MAMMOTH INNOVATION

www.monkey-vision.com.au/

1 **UNBOX WHAT'S IN THE BOX.**

Then C-A-R-E-F-U-L-L-Y screw the antenna in to the gold connecting points on the camera.

2 **PLUG IN THE PLUG.**

Give it a minute or two to power up.

3

Download

Monkey Vision Connect from your app store.

4 **GO TO WIFI SETTINGS 📶 ON YOUR MOBILE PHONE.**

Select the network that has the word **'IPCAM'** with an _ and some numbers after it. That's your camera. Then enter the default WiFi Password **"01234567".**

5 **OPEN THE APP.**

Tap the bar. ➡️ 📷 Add Camera

6 Give your camera a **NAME**

Be funny. Be relevant. It's up to you.

Leave the username as 'admin' and don't change the password just yet.

TAP THIS

7 🔍 Search Camera from LAN ❯

Your camera should appear as a name that starts with four letters then some numbers.

Cross-check that it's the same as the name on the QR code sticker on your camera.
8 **TAP THE SETTING ICON ⚙️ NEXT TO YOUR CAMERA.**

Go to Change password to change your password. *(duh)*

9 **TAP 'CAMERA SETTINGS',**

Choose '**WIFI setting**' then '**WIFI manager**' select your usual network* and enter its password.

········

*Check the signal strength shown in app, before installing the camera in the desired location.

10 **SCREW IT UP AND**

YOU'RE ALL DONE!
