

Hire Shop Customer Cleaning Process

To ensure the safety of Bunnings Team Members and customers in the Hire Shop, extra steps have been implemented to promote positive health standards when hiring equipment and vehicles from Bunnings.

Recommended Cleaning Process – to be completed before & after each hire

Recommended items required for cleaning:

- Personal protective equipment (PPE) – Single-Use Gloves
- Disinfectant in spray bottle
- Cleaning wipes/cloth/paper towel

Disinfectant solution; Warm soapy water with a disinfectant added or disinfectant wipes.

When hiring equipment or vehicles complete the following:

1. Spray utilising the disinfectant solution and wipe the exterior of the machinery paying additional attention to any handles, buttons, switches and contact points.
2. For trailers, spray utilising the above solution and wipe surfaces paying additional attention to:
 - Tray gate handles
 - Tray floor surface (edged only)
 - Tow ball hitch
 - Chain & D shackle
3. Dispose of any wipes/cloth/paper towel and gloves used during this process.
