A NEW GENERATION OF KITCHEN SURFACES

Product Information
Features and Benefits

Forward thinking,
enviromentally conscious design

Nexgen Stone emerges as a paradigm shift in surface materials, leveraging a ground-breaking Vitrified Compact Surface (VCS) technology. An advanced manufacturing process helping Nexgen Stone transcend conventional limitations, boasting exceptional strength, durability, scratch resistance, and heat resistance.

Containing up to
89% recycled materials

Using a unique recycled glass make-up and featuring up to 89% recycled materials, Nexgen Stone is transforming design with a purpose. Helping to minimise environmental impact and promoting resource conservation at the same time.

Offering exceptional
performance and strength

Nexgen Stone exhibits excellent compressive and flexural strength, exceeding granite and marble benchmarks. Its resistance to scratches and stains simplifies maintenance, while its impressive thermal resistance renders it highly resistant to everyday kitchen heat.

Spill Resistant
Thanks to high spill resistance technology, clearing up those small marks and stubborn spots is a breeze with Nexgen Stone.

Stain Resistant
A near care-free surface that doesn't require any sealing or ongoing treatment, making it ideal for any internal application.

Environmentally Friendly
With recycled ingredients and a sustainable design ethos, Nexgen Stone truly is a decorative material with purpose.

Heat Resistant
High heat resistance means Nexgen Stone is ideal for internal applications like benchtops, splashbacks and high heat areas.

Scratch Resistant
Nexgen Stone contains impressive scratch-resistant properties, perfect for whatever life can throw at it.

10 Year Warranty
Covered by our ten year warranty, you can be rest assured that your Nexgen Stone product will remain beautiful for many years to come.

Luxury Surface Architecture

Hard Wearing, Durable Designs.
All of our surfaces are designed to be durable and suitable for a range of internal applications, such as kitchens, bathrooms, splashbacks and covered alfresco dining areas for your piece of mind.

Easy Clean, Surfaces.
Nexgen designs are made for easy cleaning with nothing more than warm soapy water and a simple microfibre cloth. For those more stubborn marks, try our dedicated cleaning solutions.

Thousands of Happy Homes.
Petra Global products have made their way into thousands of homes all over Australia and we invite you to be the next happiness story. Our friendly staff are experts in all things surfaces and can't wait to help bring your project dreams to life.

10 Year
Peace of Mind Warranty

Nexgen Stone does not require sealing or regular maintenance, making it a practical, durable and affordable solution for your home or project. Nexgen Stone is not indestructible, but it is tough - with high durability against heat, scratching, chips and stains. All Nexgen Stone products come with our 10 year peace of mind warranty.

Care & Maintenance

Receiving your complimentary cleaning and care kit
Nexgen Stone requires minimal maintenance to keep your surface looking as good as new. When you register your Nexgen Stone product within 30 days, you will receive your complimentary cleaning and care kit. Using the contents contained within on a regular basis will help ensure the long lasting life of your Nexgen Stone product.

How to care for your benchtop

Everyday polished benchtop cleaning requires no more than soapy water and a clean microfiber cloth.

To manage those stubborn marks or spills on polished benchtops, do the following:

- With the contents of your care and maintenance box, wet and wash your microfiber cloth, ensuring it is clean and free of any debris.
- Place a small, twenty cent piece size drop of cream cleanser on your benchtop and wipe in small circular motions with your microfiber cloth and create a lather.
- Avoid heavy rubbing in the same area to prevent any etch or scuff marks appearing.
- Once the area is clean, wipe excess cleanser away with a wet and clean microfiber cloth or paper towel.

General tips for using your Nexgen Stone benchtops

- Always use a chopping board when chopping food to avoid any unwanted scratches.
- If your pots and pans are too hot to touch, they are too hot for your benchtop. Always use heat trivets or chopping boards to place any hot items directly on your benchtop surface.

Clean & Damp Microfibre Cloth

Wet the area to be cleaned

Apply 20c size drop of cleanser

Wipe in gentle circular motions

Wipe away any excess cleanser
