Disclaimer:

- (1) The shower base to shower screen compatibility set-up to determine that both products work together.
- (2) The variables on customer installation can affect the compatibility of the 2 products working together. Example: positioning of the base versus thickness of wet board + tile glue + tiles can leave less space for the screen to fit internally of the lips of the shower base.
- (3) We recommend that the instructional manual and a qualified tradesman is consulted prior to installation.
