## 12mm Structural Panelling is Now Bracing Certified for Superior Wall Support

### Increased Strength, Enhanced Stability

STRUCTApanel has achieved bracing certification for its 12mm product, solidifying its position as a high-quality panel for wall bracing applications. This certification signifies that STRUCTApanel 12mm meets the stringent requirements for strength and rigidity, making it an ideal choice for projects where wall stability is paramount.

### A Name Change to Reflect New Capabilities

To reflect its expanded capabilities, the product will now be known as STRUCTApanel 12mm Structural Panelling.

### Superior Performance for Robust Structures

Thanks to its bracing certification, STRUCTApanel 12mm Structural Panelling enhances your walls' ability to endure pressure and maintain their structural integrity. Whether you're building a new home, renovating an existing structure, or undertaking any project that requires robust wall support, STRUCTApanel 12mm provides the stability and confidence you need.

### The Importance of Bracing in Construction

Wall bracing plays a crucial role in ensuring the overall strength and safety of a building, particularly against lateral forces. Building codes have strict regulations regarding wall bracing to ensure public safety - by using a certified bracing solution like STRUCTApanel 12mm, you're investing in the long-term stability and security of your structure.

### Unchanged Performance

The exceptional qualities you've come to expect from STRUCTApanel 12mm remain the same. It continues to offer superior impact resistance, screw-holding capacity, a smooth surface for painting, and versatility for various applications, such as:

- Internal wall panelling
- Temporary hoarding
- Timber flooring underlay
- Plus many other applications

Additionally, STRUCTApanel 12mm Structural Panelling is backed by a 12-month warranty for temporary hoarding applications.

### Moving Forward

You'll soon start seeing the updated product name, STRUCTApanel 12mm Structural Panelling, on packaging and our marketing materials.

We're confident this upgrade will prove invaluable for your building needs.
