Storage

1. Before storing your umbrella, make sure it is completely dry and clean.
2. Keep the umbrella in a dry and well-ventilated place to protect against mildew.
3. So that you can enjoy using your umbrella for a long time, only use very mild cleaning products on it. Then allow it to dry thoroughly. Mildew spots can be removed with a mild cleaning product. Never use cleaning products that contain solvents, as these will bleach and damage the material.
Tip: To avoid damage, never use alkali or acidic cleaning products or steam cleaners to clean the umbrella. To prevent material damage, remove any collected water from the canopy by either draining off the water or by dismantling the umbrella. Please remember that your canopy is NOT 100% waterproof and that water can seep through the seams and/or the material. Your umbrella protects you from the sun and is not a rain shelter.
4. Clean with damp cloth.
