

EARTHWOOL® GLASSWOOL

the feel good glasswool insulation

Insulation acts as a barrier to heat transfer and will help to keep your home warm in winter and cool in summer. It will also provide a healthy and comfortable living environment. As a result of having a well insulated home, energy bills can also be reduced by up to \$400* per year.

Earthwool® glasswool insulation can be installed as a DIY project, to find out more or to watch the step by step DIY videos visit www.thinkinsulation.co.nz
