

R18TL

### IMPORTANT!

It is essential that you read the instructions in this manual before assembling, operating, and maintaining the product.

Subject to technical modification.

Safety, performance, and dependability have been given top priority in the design of your tripod area light.

### INTENDED USE

The tripod area light is intended for general illumination of most work area spaces. Do not use the product in wet conditions.

Do not use the product for any other purpose. Use of the product for operations different from intended could result in a hazardous situation.

### TRIPOD AREA LIGHT SAFETY WARNINGS

- The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
- Use only with recommended battery pack and charger. Any attempt to use another battery pack will cause damage to the product and could possibly explode, cause a fire, or personal injury.
- Do not disassemble the product.
- The product is non-dimmable; do not connect with any dimmers.
- If wrapped or in contact with fabrics, the lens can produce sufficient heat to melt some fabrics. To avoid serious personal injury, never allow the lens to come in contact with anything.
- Do not direct the light beam at persons or animals and do not stare into the light beam yourself (not even from a distance). Staring into the light beam may result in serious injury or vision loss.
- Do not place the product or battery pack near fire or heat. This will reduce the risk of explosion and possible injury.
- Do not place hands or fingers between adjustable head and frame when positioning work light to avoid possible pinching.
- To reduce the risk of electric shock, do not expose to water or rain. Do not place or store the product where it can fall or be pulled into a tub or sink.
- To reduce the risk of injury, close supervision is necessary when the product is used near children.
- To reduce the risk of injury or damage, avoid contact with any hot surface.
- Check to make sure the product does not rock, slide or move prior to use.
- Put the product on a firm level surface where there is plenty of room to handle and properly support the product.
- Remove the battery pack before starting any work on the product.
- Do not store the product in a damp or wet location, or in a location where the temperature may reach or exceed 40°C (104°F). For example, inside sheds, vehicles, or metal buildings in the summer.

### ADDITIONAL BATTERY SAFETY WARNINGS

#### ⚠ WARNING

To reduce the risk of fire, personal injury, and product damage due to a short circuit, never immerse your tool, battery pack or charger in fluid or allow a fluid to flow inside them. Corrosive or conductive fluids, such as seawater, certain industrial chemicals, and bleach or bleach-containing products, etc., can cause a short circuit.

### TRANSPORTING LITHIUM BATTERIES

Transport the battery in accordance with local and national provisions and regulations.

Follow all special requirements on packaging and labelling when transporting batteries by a third party. Ensure that no batteries can come in contact with other batteries or conductive materials while in transport by protecting exposed connectors with insulating, non-conductive caps or tape. Do not transport batteries that are cracked or leaking. Check with the forwarding company for further advice.

### MAINTENANCE

- Use only original accessories and spare parts. Should components need to be replaced which have not been described, please contact an authorised service centre. All repairs should be performed by an authorised service centre.
- Avoid using solvents when cleaning plastic parts. Most plastics are susceptible to various types of commercial solvents and may be damaged by their use. Use clean cloths to remove dirt, carbon dust, etc.
- Do not at any time let brake fluids, gasoline, petroleum-based products, penetrating oils, etc., come in contact with plastic parts. Chemicals can damage, weaken or destroy plastic which may result in serious personal injury.

### SYMBOLS ON THE PRODUCT

Safety alert

V

Volts

Direct current

The rated maximum ambient temperature

Class III protection

Please read the instructions carefully before starting the machine.

Regulatory Compliance Mark (RCM). Product meets applicable regulatory requirements.

Do not stare at light source.

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local authority or retailer for recycling advice.

## PRODUCT SPECIFICATIONS

Tripod area light	
Model	R18TL
Voltage	18 V 
Wattage	22 W
Light output (lumens)	
High brightness level	2700 lm
Medium brightness level	1000 lm
Low brightness level	500 lm
Colour rendering index (CRI)	80
Correlated colour temperature (CCT)	5000 K
Height	
Fully extended	1.7 m
Fully collapsed	0.6 m
Weight - not incl. battery pack	3.2 kg

## BATTERY AND CHARGER
