

Complete Joinery Solutions

Our Offer

Bunnings Trade has a long history of supplying high-quality joinery solutions for residential and commercial projects, beyond what is provided via our store network.

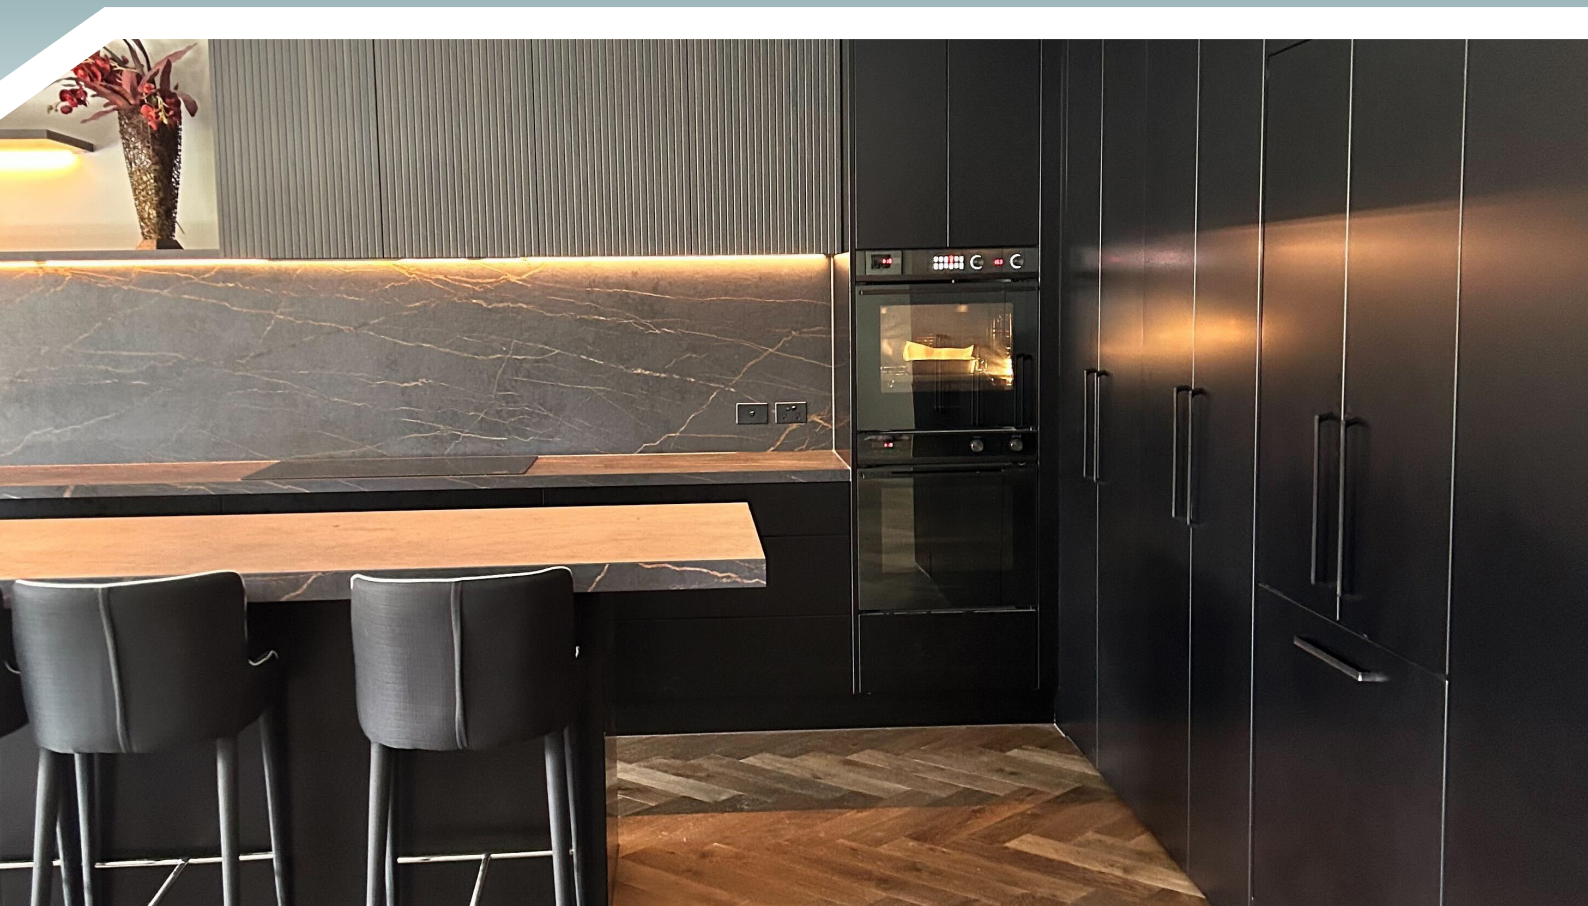

At the high-end, we offer fully customisable solutions to meet architectural specifications, with the same level of flexibility as you would get with a Joiner.

For large-scale, multi-residential projects we partner with you to find the right solution to meet the project outcomes and have access to both local and offshore options.

We only work with high-quality suppliers, installers, finishes and joinery hardware to deliver the professional quality and finish you need.

All joinery is delivered as rigid carcass, fully assembled into each room, ready for installation by your Installer or the Bunnings Commercial Installation Team.

- ✔ **Profitability** – Our solutions can help you value-manage your joinery jobs.
- ✔ **Options** – No matter the specification or scale of job you're working on, we will have an option to suit your needs.
- ✔ **Reliability** – It's all about a quality outcome delivered in full. We will have your joinery manufactured to your requirements and delivered directly to site. The choice is yours for supply and installation or supply only.
- ✔ **Access** – We provide you with access to a wide range of hardware and finishes.

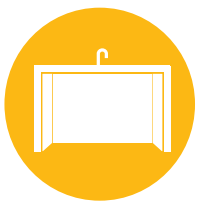

RANGE AND STYLE

We have carefully chosen the suppliers we partner with to ensure our joinery offer is able to meet requirements across the widest array of design and project specifications.

Bunnings' joinery options cover a range of designs across traditional, modern and contemporary styles to meet changing trends and tastes.

We provide solutions for all areas of a home or business, including wardrobes, kitchen and pantry, bathroom, laundry, outdoor kitchen and entertainment areas, lobby areas and offices. All products we supply meet Australian Standards and building codes.

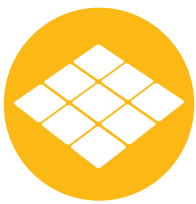

Whether working with existing appliances and fixtures or supplying new, our comprehensive, whole-of-build proposition includes everything you need to complete your joinery projects.

Handles

We fully warrant all our suppliers and ensure the application, is appropriate for the intended use.

PROJECT SCOPE

We have worked with commercial customers on a diverse range of projects requiring domestic and commercial applications, including but not limited to:

- ✓ **Childcare centres;**
- ✓ **Aged care and retirement living refurbishments;**
- ✓ **Holiday accommodation renovations;**
- ✓ **Multi-residential, attached and semi-detached builds.**

Whether your project requires a custom design or simply manufacturing to a specified standard, we can help you value-manage the project to achieve the optimal outcome.

Service

We start by understanding your project and plans, then partner with a range of suppliers to deliver best value outcomes with either specified finishes or substitutions. This is further enhanced with solutions to support requirements for people of all abilities.

Our team can support you and your project team through the design stage, help with range selection and substitutions, timely manufacturing and deliver the finish you need for your projects. We have service options to suit your budget and needs – whether it's a supply-only order or a full installation.

SUPPLY AND INSTALLATION SERVICES

Working with our commercial supply and install team can significantly improve the efficiency of your project. You will have a single point of contact for the project and deliveries aligned to your schedule – to supply joinery when and where required – helping you meet deadlines and progress milestones.

Our comprehensive service for custom, whole-of-build/project joinery and cabinetry has solutions for all areas of commercial or residential projects. In addition to support with design or delivering from specifications, our Supply and Install team provide project management services and deliver expert installation.

You benefit from both our knowledge and backing.

We have experience delivering thousands of projects, across a wide range of requirements, including multi-stage and multi-million-dollar projects.

We choose our installation partners using a rigorous selection process – all are fully vetted and verified installers.

As part of the Bunnings group and Wesfarmers corporation, we can offer you stability and flexibility, are fully insured and we warrant all installations completed by our team.

✔ **Single Point of Contact**

✔ **Project Managed**

✔ **Expert Installation**

✔ **Insured and Warranted**

BUILDING SOLUTIONS STUDIOS

Our Building Solutions Studios in three states are dedicated spaces for Builders, Developers, businesses, Architects, Designers and their clients to explore our extended range of joinery. We showcase innovative whole-of-build and fit-out solutions across all building categories, from residential through to commercial, all in the one generous location.

Selection Service

Our tailored selection service is simple and allows you and your clients to touch, feel and see up-close the fitting options available to be selected for a home or project, making the process simple and reducing the risk of variations later in the project.

Our team of specialists in areas including joinery and front-of-wall plumbing, are also available to help guide your selection.

Click here or scan the QR code to make a selection enquiry at one of our Building Solutions Studios.

Studios are located at Port Melbourne, Castle Hill and Cannon Hill and are available by appointment from 8am to 4pm, Monday to Friday.

NETTBUILD CUSTOMER TESTIMONIAL

Bunnings Trade has supplied and installed all cabinetry and benchtops in the kitchens and laundries of 53 units in stage one of this project, plus all joinery and benchtops in the Recreation Centre which included kitchens, storage, bookcases and office fit-outs. In addition, Bunnings supplied and installed the outdoor kitchen and balustrading. A full custom joinery solution was provided for the stage one works, and Bunnings has been awarded the kitchen and laundry cabinetry, plus balustrading, for a further 57 units as part of stage two.

“Bunnings have been one of our major suppliers for many years. During this time, we have undertaken various projects including townhouse complexes, residential builds along with most recently, an Intergenerational Living Development which incorporates a Childcare Centre, Retirement Village and our boutique Recreation Centre.

Our Account Manager has been instrumental in advising us of the extensive range of products including: lifts; kitchens; balustrading; and privacy screening to name a few.

The introduction of PowerPass has made it so much easier for our tradespeople to go to any Bunnings and purchase on our account, as and when required.

We are extremely happy with the services and products that Bunnings Trade supplies.”

GEMBROOK CUSTOMER TESTIMONIAL

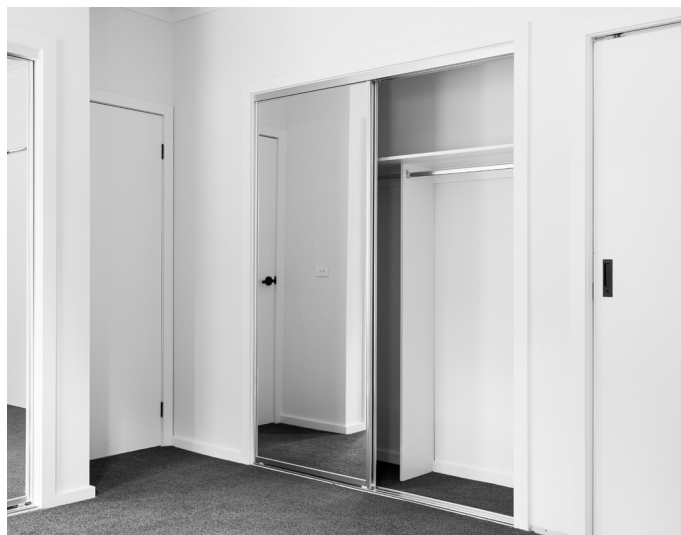

For this particular project by Gembrook, Bunnings Trade has supplied approximately 90% of products and materials, as with a lot of this developer's builds. This has included pre-fabricated frames and trusses, flooring, internal and external wall linings, joinery and fixtures and fittings. Our Supply and Install team project managed the installation of the plaster, flooring and cabinetry.

"I have worked with Bunnings for many years – their team are basically my procurement team! Their Supply and Install team takes control of my sites from plaster through to flooring, which is great as my trades can then go and work on other jobs whilst Bunnings are in there, and I know that the Bunnings team treat the job as if it's their own. The quality of their work is great, which makes me happy, my tradies happy and my clients happy.

I tell all my tradies and other builders that they should give Bunnings a go – just call their local Trade Specialist or Account Manager and have a chat with them."
