

## INSTALLATION GUIDE BIDET SPRAY HAND PIECE

### IMPORTANT

- Thoroughly inspect all parts for defects or damage prior to installation. Warranty claims will be void if product is installed with pre-existing defects.
- Ensure that installation of this product is in accordance with local, state and national building codes and regulations. Check these regulations before attempting any DIY work.
- This product is not recommended for continuous pressure applications and should be installed with an isolation valve that allows the water supply to be turned off when not in use
- The water supplied to this product must be potable (drinking) water. Rain water, grey water, or recycled water must not be used as doing so may cause skin irritation or infection.

### INSTALLATION

1. Turn off the water supply.
2. Connect the hand piece to the hose, ensuring the rubber washer is seated correctly (hose and rubber washer sold separately).
3. Turn on the water supply and check all joints for leaks.

### OPERATING SPECIFICATIONS

Pressure: min 150 kPa — max 500 kPa

Temperature: min 2 °C — max 20 °C

**Not for use with hot water**

### CARE AND MAINTENANCE

- Clean with a soft cloth and warm soapy water.
- Do not use harsh detergents, corrosive chemicals, or abrasive cleaners.
