

HOW TO SET UP

1. Pull down the black handle on the white recovery tank, lift up the clean dome lid and pull out the white recovery tank
2. Fill the lower red tank (underneath the recovery tank) with 9L of hot tap water and 2/3 cup of Rug Doctor Carpet Cleaner. Ensure that the cleaning solution and hot water does not exceed above halfway up the filter.
3. Every time you refill the lower red tank, empty the white recovery tank and wash and clean the filter.

4. Replace the recovery tank back to the start position and replace the clear dome lid back onto the recovery tank. Secure by pulling up the black handle.
5. Make sure the Rug Doctor solution hose is connected to the brass connector on the back of the machine.
6. Plug the machine into the power outlet.
