GLASS POOL FENCING

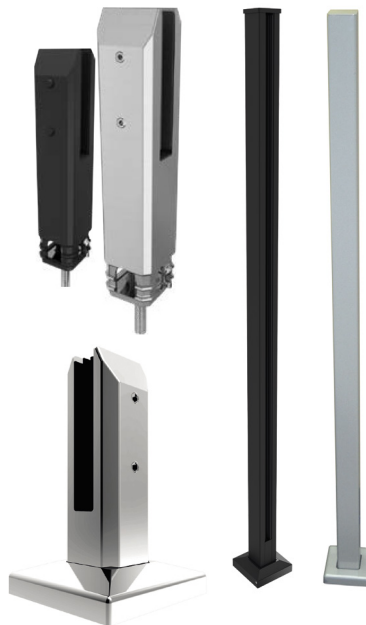

This glass pool fencing system includes gate and hinge panels that are custom-made to fit **The Architects Choice** hinges and latches, which makes alignment and gate-fitting quick and easy.

It can be installed with spigots to provide a superior quality, frameless glass pool fence. Alternatively, install with posts for a semi-frameless glass pool fence that provides a premium look on a budget.

A wide range of accessories is also available to complete your fencing, including:

- Friction-fit handrails finished in Mirror Polished Stainless Steel or Matt Black Aluminium;
- Clamps finished in Mirror Polished or Matt Black (rectangular or oval);
- 2.4m long handrails powder-coated in Satin Black or Palladium Silver
- Joiners;
- Wall mounts; and
- Endcaps.

SPECS

- Premium Automotive Grade Toughened Glass
- Available in widths from 500-1300mm

PVC PICKET, TIMBERLINE POST AND RAIL FENCING

Made using recycled composite PVC, **Think Fencing's** products are 100% Australian made from 85% recycled materials and are 100% recyclable at end of life. The picket fencing comes in a full range of contemporary and traditional styles and colours and looks equally good from the back or front, whilst Timberline combines the beauty of freshly painted timber with the strength and resilience of advanced recycled Polymers.

Posts can be installed in ground or on a galvanized steel mounting plate fastened onto a concrete base and the fence can be fabricated for installation on a gradient using either a rake or step down (accommodating a 3% gradient as standard for Post and Rail).

The fencing is simple to install with virtually zero maintenance. No painting is required and the product comes pre-coated in a graffiti resistant coating. Matching Gates are available in swing up to 2400mm or sliding up to 6000mm wide.

SPECS

Picket Fence Specs:

- 76x22mm pickets
- 150x50mm bottom rail
- 88x51mm top rail

Post and Rail Specs:

- 1 to 4 rails, from 900mm to 1600mm high
- Post centres as standard 2425mm

ALUMINIUM BOUNDARY FENCING

Protector^{AL}

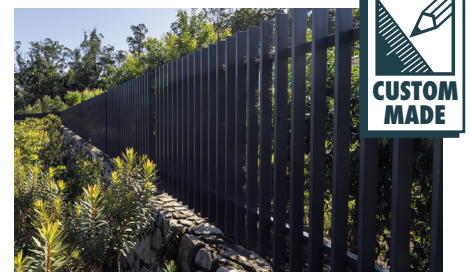

This product can be custom ordered in a wide variety of sizes, styles or colours to meet your customer's needs. Raked panels are also available to allow for sloping ground and panels, gates, posts, brackets, and hardware and accessories are also available to complete the job.

Gate Converters have been designed to easily convert a 1200mm high flat top boundary fence panel into a gate, giving you the opportunity to create a custom-sized gate any size up to

2400 wide, simply by cutting the panel to the required size.

Panel Brackets are used for attaching fence panels to posts and walls. These brackets are light, strong, and easy to fit. They allow for some adjustment if your panel is a bit shorter than the gap between the posts.

They also allow for some sideways adjustment if your fence is not in a straight line – approximately 15 degrees (7.5 degrees each way).

TIMBER FENCING

Bunnings has a wide range of timber Fencing materials to help you complete your timber fencing jobs.

We source our Pickets, available in a range of profiles and species, from many Australian producers that manufacture to suit their local market. In addition to the range available in our warehouses, we have an extended range of styles and sizes available to order, plus posts and plinths to complement the chosen style of fence.

Our Paling fencing is also locally produced, typically in treated pine (selected for durability). Our range of available sizes varies by state, with a range of lengths available. Similarly, fence posts, rails & plinths come in a range of sizes, and lengths with various timber species used.

Bunnings has a zero-tolerance approach to illegally logged timber. Our goal is to ensure all timber and wood products supplied to Bunnings originate from legal and well-managed forest operations.

We have made significant progress in this area, with more than 99 per cent of our whole timber product now sourced from low-risk plantation or other legally verified forest operations. Most of Bunnings' timber products are sourced from independently certified forests or from forests with demonstrated progress towards achieving independent certification.

SPECS

- Picket lengths available in 900mm, 1200mm, 1500mm and 1800mm
- Forest Stewardship Council® (FSC®) certified
- Programme for the Endorsement of Forest Certification (PEFC) certified
