

MULTI USAGE THREADSEAL STRING

Enduraseal Multi Usage Threadseal String is a high density nylon fibre thread sealant, suitable for all plumbing applications.

Application Instructions:

1. Ensure threads are clean and free from oil and dust.
2. Wind the string onto the male thread in the same direction as the thread, apply string in a criss-cross manner. Cut the string with the in-built cutter.
3. Recommended Turns for Application.

Pipe Diameter	1/2"	3/4"	1"
Number of Turns	7	8	10
