How It Works

It's as simple as 1,2,3! Follow the steps shown to purchase or order your product. If you need further advice, speak to a Team Member at the Special Orders Desk in-store.

1. Select The Product You Want

View the extensive range available in this brochure or online to select the item that best suits your needs.

Marine Shine 75ml

- Cleans, polishes & protects stainless steel fittings and fiberglass surfaces
- Removes stains, rust and tarnish
- Dual use: ideal as a buffing compound

4460764 Item Number

2. Order At The Special Orders Desk

After you have selected the product you want, take this brochure to the Special Orders Desk.

3. Collect Your Order

Upon placing your order, your product will arrive in store within 7-14 working days.

METAL CARE - EASY & EFFECTIVE

TWO EASY STEPS:
for both **HEAVY** and **MILD CORROSION**

DULL BUT IN GOOD CONDITION

- 1 Wash with water and detergent every week or so. This will remove surface contaminants, thereby greatly reducing oxidation.
- 2 Polish with **Autosol Metal Polish** every few months to remove oxidation, restore shine and protection.

CORROSION, RUST & STAINS

- 1 Apply **Autosol Metal Life Saver** to remove heavy corrosion, stains, even bluing from motor exhausts - refer pic (d) inside. Rinse with water after application.
- 2 Apply **Autosol Metal Polish**. This will provide shine and protection to the now-clean metal surface.

TIPS

- Wash off grime every few weeks
- Polish & Protect every few months
- Use the most suitable Autosol product for each metal type
- Autosol provides a 3-in-1 action: **CLEANS, POLISHES / SHINES** and **PROTECTS** all metal surfaces.

Autosol paste products are 10 times more concentrated than equivalent liquid products = GREAT VALUE

BASIC METAL TYPES

• Aluminium

• Brass

• Bronze

• Chrome

• Copper

• Iron

• Pewter

• Stainless Steel

SPECIALTY PRODUCTS

Acrylic Surfaces - also known as Perspex

Autosol Acrylic Polish

removes small scratches and haze from most types of plastic. e.g. clear acrylic windscreens that are commonly used on motor bikes, marine craft, and bike helmets. Also suitable for colour-tinted plastic as used in rear light lens covers on cars, bikes, marine craft, plastic sheet, furniture, etc.

75ml

44610011

Gold & Silver

Autosol Gold & Silver Polish

is an extra-gentle formula for polishing and preserving the shine on gold, silver and other precious metals.

NON-TOXIC, SAFE TO USE.

75ml

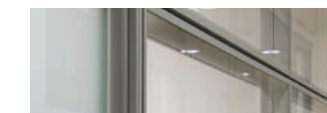

4460755

Anodised Aluminium

Autosol Anodised Aluminium Polish

is specially formulated to polish, restore and protect anodised aluminium without harming the surface.

Note: Anodised aluminium is commonly used on window frames and furniture.

75ml

Marine Care - Hull, Deck, Metal Fittings, Interior

Autosol Marine Shine

easily removes corrosion and oxidation from metal (such as stainless steel fittings) and fibreglass on marine craft; shines and protects from saltwater, sun and other environmental damage. It can also be used as a buffing compound for faded fibreglass on hull and deck.

Note: Also available in 350g tub, 10kg and 20kg

75ml

4460764

Synthetic Chrome (Chrome Plated Plastic)

Autosol M1 Cleansing Polish

use to clean, polish and protect chrome-plated plastics. New cars, appliances and furniture often use synthetic chrome rather than real metal; synthetic chrome will abrade with harsh polishes and cleaners.
