

### BATTERY INSTALLATION

1. Hold the tap timer with the battery compartment facing you
2. Remove the battery compartment tray
3. Connect a 9V ALKALINE battery to the battery connector
4. Insert the connected battery and push in the battery tray

**i** When changing a battery, the timer will hold the current program if you fit the battery within 2 minutes. When changing the battery, make sure the battery compartment stays dry

**i** Use only 9V ALKALINE batteries

### PROGRAMMING CONT.

3. Push 'ENTER' the red LED will appear solid for three seconds to confirm your section. Watering will start at the selected interval

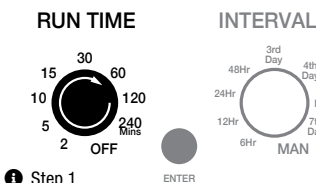

**i** The time that the button is pushed is used as a reference start time. To change the program, simply follow the same three steps

**i** Step 3

### MANUAL START

1. Turn the 'LEFT' dial to select run time
- i** Running a manual run time will not change any program previously entered. Watering will begin and end at selected run time. No need to move the dials
2. Turn the 'RIGHT' dial to 'MAN'
3. Press 'ENTER'

**i** Step 1

### RED LED - OPERATING STATES

1. SOLID for three seconds: Confirms program and each time the auto program is changed
2. FLASHING every 30 seconds: All is running correctly
3. FLASHING every one second: Battery needs changing

### EXTRA WATERING CYCLES

The manual operation mentioned previously can be used for running an extra cycle whilst the timer is programmed

The manual cycle will run immediately after the 'ENTER' button is pressed

The Tap Timer will resume the automatic program once the manual time has elapsed

### FAULT FINDING

1. Ensure your tap is turned on
2. Ensure your battery is in good condition  
Use only 9V ALKALINE battery
- i** When the Tap Timer is not using an automatic program, it must be in the 'OFF' position. Turn the tap 'OFF' when the Tap Timer is not in watering mode

### CLEARING MEMORY

To clear an existing program, remove the battery and wait until the timer resets. (This can take up to 5 minutes)

Alternatively, remove the battery and initiate a manual start which will clear the memory immediately

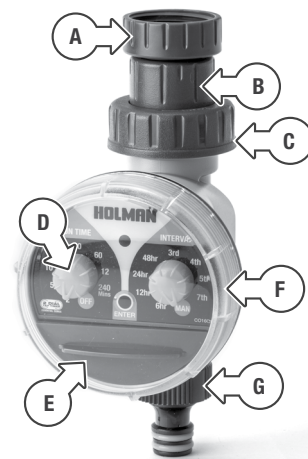

### GLOSSARY

- UNIVERSAL TAP ADAPTOR
- TAP CONNECTION
- UNION NUT
- CONTROL DIALS
- BATTERY COMPARTMENT
- CLEAR SCREW-ON COVER
- SNAP-ON HOSE CONNECTION

### INSTALLATION

Make sure the washer is in place, then screw the Tap Timer to the tap. Turn it clockwise (hand tighten only)

**i** There should be no need to use thread seal tape, as long as the tap seals onto the washer

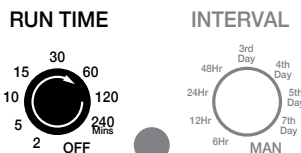

### SIMPLE 3 STEP PROGRAMMING

Set run time and watering interval then press 'ENTER' to reference the start time

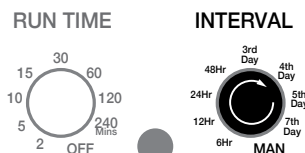

**i** Tap Timer will not run immediately after program is set. Program will commence after chosen interval duration has lapsed

1. Turn the 'LEFT' dial to select RUN TIME. Select from 2 minutes to 240 minutes

**i** Step 1

2. Turn 'RIGHT' dial to select interval. Select from every 6 hours to every 7 days

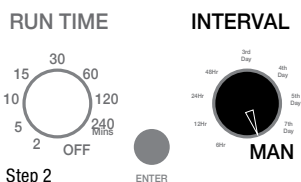

**i** Step 2

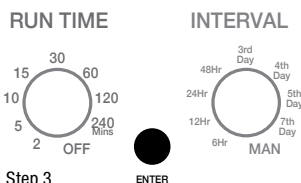

### STOP OR NO WATERING

1. Turn the 'RUN TIME' dial to the 'OFF' position. While the 'RUN TIME' dial is in the 'OFF' position NO watering will happen

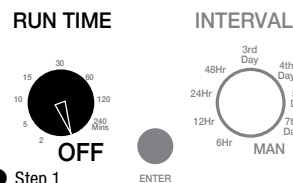

**i** To re-commence pre-set program, move the 'RUN TIME' dial to any other position

**i** Step 2

**i** Step 3

**i** Step 1
