

POLYPROPYLENE CASTORS

UP TO
120kg
LOAD CAPACITY

Polypropylene castors are a general purpose castor which is simple, reliable and economical. The complex braking assembly is compact yet easy to use and efficient.

Ensure wheels are free from debris as polypropylene is suitable for hard floors only. Stillages, trolleys, dollies, medical equipment and catering equipment are commonly fitted with polypropylene castors.

Product Code	Castor Type	Wheel Diameter (mm)	Tread Width (mm)	Wheel Material	Bearing Type	Load Capacity (kg)	Finished Height (mm)	Fitting Type
0082896	Fixed	20	38	Polypropylene	Plain Bearing	110	29	Bolt Hole
0101905	Swivel	50	38	Polypropylene	Plain Bearing	70	74	Plate Mount
0204479	Fixed	50	22	Polypropylene	Plain Bearing	40	70	Plate Mount
0204481	Swivel	50	22	Polypropylene	Plain Bearing	40	70	Plate Mount
0204483	Swivel + Brake	50	22	Polypropylene	Plain Bearing	40	70	Plate Mount
0204484	Swivel	50	22	Polypropylene	Plain Bearing	40	68	Bolt Hole
0204485	Swivel + Brake	50	22	Polypropylene	Plain Bearing	40	70	Bolt Hole
0259915	Swivel + Brake	50	38	Polypropylene	Plain Bearing	70	74	Plate Mount
3940331	Fixed	50	21	Polypropylene	Plain Bearing	40	73	Plate Mount
3940332	Swivel	50	21	Polypropylene	Plain Bearing	40	73	Plate Mount
3940333	Swivel + Brake	50	21	Polypropylene	Plain Bearing	40	73	Plate Mount
3940334	Fixed	80	51	Polypropylene	Plain Bearing	120	110	Plate Mount
3940335	Swivel	80	51	Polypropylene	Plain Bearing	120	110	Plate Mount
3940336	Swivel + Brake	80	51	Polypropylene	Plain Bearing	120	110	Plate Mount
3941300	Swivel	40	17	Nylon	Plain Bearing	30	58	Plate Mount
