

Buildings to fit your farm.

- 44 standard designs available from our extensive range
- Lean-To and Gable End sheds available in 3.6 or 4.8 spans
- All standard sheds are designed for very high wind zones
- Custom designs available on request
- Made from SG8 H3.2 Gauged Timber

To order or find out more, contact the Bunnings Farm Buildings Team
via email FarmBuildings@bunnings.co.nz

Find a shed that fits.

We currently have 44 standard farm sheds ranging from 2-5 bays with two different roof types. Standard templates vary from roof types and sizes. Our aim is to provide the closest match that suits your needs.

An indicative price will be provided on request, and should you wish to proceed with your shed order, a plan fee is required which may vary based on shed type.

Materials

Timber: Locally sourced and meets all specifications outlined by the Farm Shed Designers.

Hardware: Meets all local council requirements and specifications.

Roof & cladding materials may vary based on site location.
