Timeless elegance with modern and contemporary designs

Strong and durable powder coated steel craftsmanship for peace of mind

Designer quality at an affordable price

Designed for easy installation without compromising on luxury

THE MASTERWORKS LIFETIME WARRANTY

Our gates are handcrafted using high-quality steel, incorporating a meticulous process of shaping, welding, pre-galvanization, a double application of zinc rich primer, and Jet Black Matte finish powder coating (RAL9005).

This comprehensive process ensures exceptional protection against corrosion and guarantees durability. We are confident in the quality of our gates that we proudly offer a limited lifetime warranty.

HIGH-END FENCING & GATES.

CRAFTSMANSHIP MADE AFFORDABLE.

Experience the perfect blend of **style and protection** with our Masterworks fencing and gates.

Meticulously hand-welded for exceptional craftsmanship, our range delivers lasting **durability and reliability**.

Experience the **elegance and security** you deserve, at an **affordable price**.

EASY D.I.Y.

Install your new Masterworks gate with ease, no expertise required.

Our fences and gates feature a thoughtful design, making them easily installed.

Enhance your space effortlessly and enjoy the lasting beauty of a Masterworks gate.

KENSINGTON

TIMELESS ELEGANCE REDEFINED

Embrace the classical, stately, and distinct allure of our Kensington gate collection. Inspired by the revolutionary era of cast iron architecture, these gates showcase a classic spear-topped design, enhanced with a tastefully ornate finish.

Immerse yourself in the timeless beauty that transcends trends and leaves a lasting impression.

The Kensington gate collection embodies elegance and sophistication, offering a touch of refined grandeur to any property.

5 KENSINGTON

0410041	100mm	100mm	2300mm

MEASURE & INSTALL

HOW TO MEASURE YOUR MASTERWORKS GATE

It is important that you ensure that you have the correct measurements to help you select the right size gate for the installation area.

Step 1 – Driveway Width Measurements

At the point where you will be installing your driveway gate, measure the total gap that you want your gate and posts (if required) to fill.

Step 2 – Driveway Height Measurements

Measure the total height allowance of the area to ensure your gate will fit within the available space. If you are planning on hanging the gates from existing brickwork, post or walls measure the height of the brickwork to ensure there is enough room for your gate to hang at the correct height.

Step 3 – Project Area

If you plan on installing more than just a driveway gate, e.g. infill panels and fencing, ensure you measure the width and maximum height of the total project area you wish to fill.

Step 4 – Selecting a Gate

When selecting a gate or fence size, it is important to remember that we use a Gap Width measurement, which is the space between the two hinge posts. For example, the Gap Width of Kensington #1 is 3050mm, however if you include 100mm hinge posts x 2, the total width of the gate and posts will be 3250mm.

Our gap width measurement of 3050mm allows for the hinges and approx. 20mm gap between the two gate leaves.
