|--|--|
| <ul style="list-style-type: none"> <li>• Pavers</li> <li>• Bricks</li> </ul> | <ul style="list-style-type: none"> <li>• Render</li> <li>• Concrete</li> </ul> |
|--|--|

### Typical Properties

Boiling Point:	100°C (water)	Specific Gravity:	1.25 @ 25°C
Flash Point:	N/A	Vapour Pressure:	17.5 mm Hg @ 20°C
Appearance/Odour:	Colourless to pale yellow, strong odour	Solubility in Water:	(water) Completely soluble

### Application Guide

#### Surface Preparation

- Surfaces should be thoroughly cleaned before use.
- **Efflorescence Remover** is ready to use directly from the bottle.

#### Application Procedure and Equipment

- Acid should be applied to affected area and left to react.
- Once visible reaction has ceased, treated surface should be thoroughly rinsed with clean fresh water. If a second treatment is required follow above procedure.

### Precautions

- Strong oxidizer, avoid contact with other materials. Product may cause fire and is corrosive.
- Poisonous. Refer to Material Safety Data Sheet for full instructions.
- Do not apply if temperature is below 10°C or relative humidity is above 85% or rain is imminent.

### Cleaning

- Immediately after use flush equipment thoroughly with water and a little detergent.

### Health and Safety

#### Safety Precautions

- Provide good ventilation – open windows and doors and use circulating fans.
