

HOW TO CLEAN CARPET

1. Set up machine as per Set Up instructions. Fill the lower red tank with 9L of hot tap water and 2/3 cup of Rug Doctor Carpet Cleaner. Ensure that the cleaning solution and hot water does not exceed above halfway up the filter
2. Ensure the white button on the top of the machine is flat on carpet, push on button to turn machine on.
3. Press and hold the red button down on the handle of the machine and walk backwards slowly to release solution spray onto carpet.

4. Tilt the machine back and push it forward to start a new cleaning pass.
5. Release the red button to stop the solution spray.
6. If water stops coming into the clear dome, take out the white recovery tank empty and wash and clean the filter.
