Our customers say it best

The Plant People is an Auckland-based landscaping business, delivering solutions for local government, land developers, and retail and commercial facilities across New Zealand. As the business continues to deliver projects at scale, having a reliable supplier is critical.

Harry Gage, Estimation Manager from The Plant People works closely with Bunnings Trade Account Manager Lyndon, who helps with product sourcing, quoting and coordinating deliveries direct to site, allowing him and his team to stay on the job. The Plant People procures a range of landscaping materials in commercial quantities including green life, timber and cement.

“Lyndon feels like part of the team. He’s one of us,” says Harry.

From coordinating deliveries to sourcing products at short notice, Lyndon supports the team to keep projects on schedule and minimises the pressure that comes with tight timelines.

“As landscapers, we’re usually coming in at the tail end of a project, so we’re always getting squeezed,” Harry says. “Working with Lyndon and the team gives us the confidence that we can get what we need and when we want it”.

For Harry, the relationship goes beyond supplying products. “We don’t have to dedicate as much resource on our side because Lyndon helps make things happen, Bunnings has our backs.”
