INSTRUCTIONS

Mirabella Pre-Lit Christmas Tree

IMPORTANT: Please read the following carefully to ensure the satisfactory and safe operation of the product.

CAUTION

This tree is for decorative purposes only. It is not a toy.

Always position the tree so that it does not pose a safety hazard to children, the elderly, or pets.

Set up the tree on a level surface.

Ensure the wire insulation does not come into contact with sharp or potentially damaging objects.

The low-voltage power adapter must remain indoors at all times.

LED bulbs are non-replaceable. Do not attempt to remove or replace any bulbs.

Do not allow children or pets to climb on the tree.

This product is not designed for permanent or long-term use.

Keep the tree at least 1 metre away from heat sources such as fireplaces, radiators, or candles.

Keep small decorations and lights out of reach of children and pets to prevent choking or electrical hazards.

Ensure the tree is securely placed in a stable stand to prevent tipping.

Make sure the light cord is free and not obstructed by the tree.

Take care to avoid damage to the power adapter, bulbs, or wire insulation.

INSTRUCTIONS

Contents

Your tree will come with the following components:

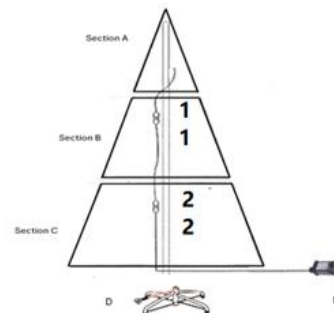

Tree Top (Section A)

Middle Body (Section B)

Lower Body (Section C)

Metal Stand (D)

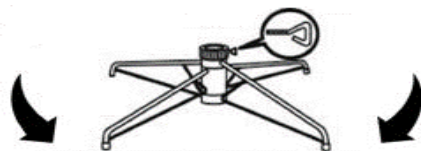

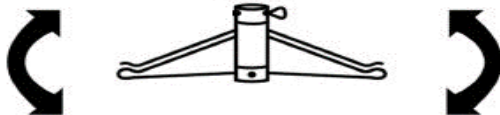

1 x Low Voltage Transformer (E)

1. Setting up your tree stand

Remove the tree stand from the box and adjust the legs to form an X shape, making sure they are positioned at 90-degree angles. Loosely insert the thumb screw to hold the legs in place.

As the assembled tree may be heavy and difficult to move, we recommend positioning the stand in your desired location before you begin assembly. Make sure the surface is level and stable.

2. Setting up your tree

First, locate the lower section of the tree, identified by a label on the outer branches marked with the letter "C".

Remove the protective plastic cap from the end of the pole, then insert the pointed end into the metal base as far as it will go.

Mirabella

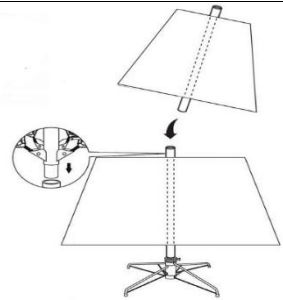

Tighten the thumb screw to ensure the trunk is straight and securely fixed in the stand.

Next, begin folding out the branches, working your way up from the bottom.

Finally, locate the connector marked "2" and attach it to the top branch.

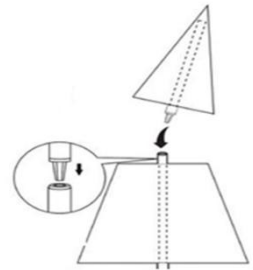

Insert the pole of the middle section (B) into the lower section (C), then unfold the branches, working upwards from the bottom.

Locate the connector marked "2" at the bottom of section B and connect it to the matching connector marked "2" at the top of section C.

Insert the pole of the treetop (section A) into the middle section (B), then unfold the branches, working upwards from the bottom.

Locate the connector marked "1" at the bottom of section A and connect it to the matching connector marked "1" at the top of section B.

For the best result, straighten and separate all the small tips and branches of the tree.

Now plug in the transformer to check that the lights are working.

If they don't turn on, switch off the power and double-check that all connectors between each tree section are properly connected.

Once the lights are on, your tree is ready to decorate and enjoy!

STORAGE TIPS

Pull out the plug from the wall outlet and remove all ornaments and decorations.

Work from the top to the bottom.

Remove each panel, pressing branches against the stem.

Place branches into the cartons with the longest branches at the bottom.

Carefully store the tree in their boxes and tape it shut.

Store the cartons in a dry place.

Do not put the tree directly under sunlight or in a damp area or an area where the temperature exceeds 40 degrees Celsius.

Please retain these instructions for future use.

TROUBLESHOOTING TIPS

1. Remote Control (Timing Mode) - If the tree does not turn on, the timer may be activated. Press the **“Timing Off”** button first, then press the **green “On”** button to turn the light on.
2. Spinning Mode – For the tree to spin effectively, it must have full clearance from any surrounding obstructions. If obstructed, the motor may come under stress and stop spinning.
