

Specialist Disability
Accommodation (SDA)
Improved Liveability Design
Product Solutions

Your partner for Specialist Disability Accommodation (SDA) solutions

The Bunnings Commercial team is here to service you from the front gate to the back fence. We are committed to bringing you the most trusted brands that specialise in products tailored specifically for individuals living with a disability and supportive of Specialist Disability Accommodation (SDA). Across all building stages we've got you covered for your SDA Improved Liveability projects.

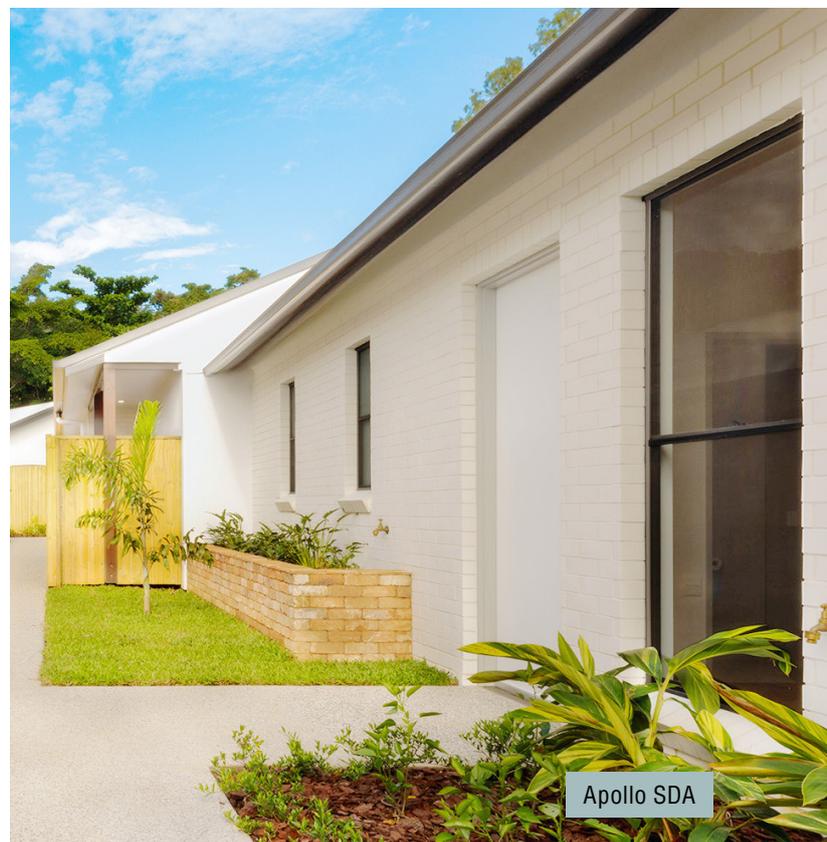

With over 130 years of supplying building and hardware solutions, Bunnings can supply everything from timber frames and trusses, to flooring, joinery, kitchens, appliances, commercial grade windows, façades, plumbing, lighting and more to cover all elements of an SDA Improved Liveability design. We're much more than a supplier, we're your partner. In addition to all the specialist products required for an SDA build, we can also supply you with:

- ✓ Foundations and Footings
- ✓ Heating, Cooling and Ventilation
- ✓ Windows
- ✓ Hot Water solutions
- ✓ External Cladding
- ✓ Outdoor Timber
- ✓ Roofing
- ✓ Fencing
- ✓ Insulation
- ✓ Fasteners and Fixings

Leading Brands

fienza

Established in 2009, Fienza is a leading Australian brand that aims to be known for beautiful, quality products that are backed by industry leading warranties. They provide a range of functional and stylish solutions for bathroom accessibility, offering a broad selection of products meeting crucial AS 1428.1 requirements. Choose from a variety of finishes to create an elegant and sophisticated bathroom space with Fienza products.

Bradley

For the past 60 years, Bradley Australia have manufactured and supplied a comprehensive range of high-quality, competitively priced accessible washroom accessories across a variety of industries. Their products all comply with the relevant codes including AS1428. Durability, design and attention to detail, combined with easy installation, make choosing Bradley not just the right choice for your project but for your business and bottom line.

euro appliances

Euro Appliances and the Eurostyle Group is an Australian owned and operated company, established in 2002. Since then, the Euro brand has continually evolved to become a household name within the appliance industry. All their appliances are covered by a three-year full parts and labour warranty. Euro Appliances aim to always provide a high standard of customer assistance, with an Australian based service team that can assist with any information or queries regarding their products.

Livigy

Livigy have developed Bunnings exclusive packages of Smart Assistive Technology to cater to various needs, offering scalability and adaptability. From basic setups for essential assistance to advanced systems for enhanced support and automation, their products can be seamlessly integrated and upgraded. Each pack is sold pre-configured, with 24/7 phone support for remote commissioning and available installation services for a hassle-free setup.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE AT BUNNINGS

Responsible sourcing

At Bunnings, we're committed to ensuring the products we sell, come from legal and sustainable operations, with good working conditions and fair treatment of people. As such, we continue to pursue sustainability by striving to make them socially responsible, environmentally aware and economically viable.

Sustainability

We are also committed to helping customers live more sustainably, and we are proud of the role we play in supporting local communities to make a positive difference. We recognise that our business plays an important role in reducing carbon emissions and addressing climate change. We have a comprehensive roadmap in place to reduce our energy consumption and to transition towards using more renewable energy sources.

In our Community

Bunnings is committed to participating in the communities in which we operate by contributing to local, regional and national causes, charities and organisations throughout Australia and New Zealand. We provide ongoing assistance to a wide range of local community groups including schools, sporting clubs and service clubs.

INTRODUCTION

The SDA Design Standard specifies the following requirements for bathrooms in Improved Liveability builds*:

- Inclusion of a toilet, a shower and a hand wash basin within the same bathroom
- The toilet seat should have a minimum luminance contrast of 30% with the background e.g. pan, wall or floor against which it is viewed
- The shower should be provided in a corner of the room with a hobless shower recess of 900mm x 900mm minimum and clear of any shower screens or shower screen fixtures
- The hand wash basin should have a minimum overall depth of 430mm

*The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

INTRODUCTION

The SDA Design Standard specifies the following requirements for Kitchens and Laundries in Improved Liveability builds:

- Kitchen with a fixed cooktop with a rangehood, an in-built oven, a sink with tap and a standard or drawer style dishwasher
- Laundry with a sink or tub with taps
- D-pull cupboard handles located towards the top of below-bench cupboards and towards the bottom of overhead cupboards for both kitchen and laundry

*The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.

INTRODUCTION

The SDA Design Standard specifies the following door and door hardware requirements for Improved Liveability builds^{*}:

- Doorways should have a minimum opening clearance of 820mm and have door handles installed at between 900mm to 1100mm above the finished floor level
- All internal doorways should have a level, step-free transition and threshold (maximum vertical tolerance of 3mm vertical or 5mm between abutting surfaces is allowable provided the lip is rounded or bevelled)
- Door handles selected must comply with AS1428.1
- While not a requirement for Improved Liveability builds, door automation provides added safety and security for all occupants

^{*}The NDIS SDA Design Standard (SDA) must be consulted with respect to design and compliance requirements. The products presented in this catalogue also rely on correct installation to meet the requirements of AS1428.
