The Bunnings Heat Pump Supply and Installation offer is for the specified units only and is available in selected stores. Pricing represents 'standard' and 'back-to-back' installation of a split system unit. 'Non standard' installations will incur additional charges. Excess travel is charged when the customers home is further than 35km from the nearest participating store. See the full terms and conditions at [www.bunnings.co.nz/heatpumpinstall](http://www.bunnings.co.nz/heatpumpinstall)

# HEAT PUMP SUPPLY & STANDARD INSTALLATION

Unsure of your heating requirements? Book a Free, Measure & Quote Here or at the Special Orders Desk In Store

The Bunnings Heat Pump Supply and Installation service is for a single level back-to-back installation only. A Standard back-to-back installation is a split system with two main components – a wall mounted indoor unit with an outdoor unit positioned directly below and opposite on a single story dwelling.

Included:

- Single level back-to-back installation of your selected heat pump
- Installer site visit to your property
- Installation by a licensed, professional installer
- Up to 3 meters of pipework & ducting (concealed by PVC)
- Up to 10 meters of electrical cabling
- Outdoor unit placed on existing hard level surface i.e. concrete, timber or pavers
- Installation on weatherboard or timber clad properties only
- Electrical Compliance Certificate

Additional Services:		
0272225	Wi Fi Adaptor Supply & Install – Carrier Only	\$109.00
