## Sub Fix and Vertical Fix Application

Application	Part No.	Handing	Description
	MC270R	R	Styleline 2 handle with double tongue for venting with 9.5mm latching.
	MC271L	L	
	MC272R	R	Slimline 2 is a low profile fastener for use in by-pass situations
	MC273L	L	
	MC274R	R	Styleline 2 handle with single tongue with 9.5mm offset.
	MC275L	L	
	MC420B	R	Low profile wedgeless handle with built-in wedge, 6mm offset.
	MC421B	L	
	MC430B	R	Standard profile wedgeless handle with built-in wedge, 6mm offset.
	MC431B	L	
	MC445B	R	Standard profile wedgeless locking handle, press to lock - key to unlock, built-in wedge, 6mm offset.
	MC446B	L	

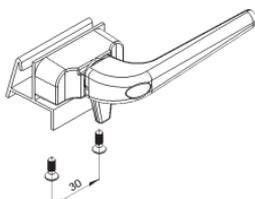

All examples shown are right handed.

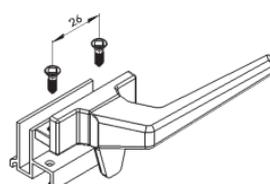

Should the offset vary from standard size, the difference can be made up with self adhesive wedges as seen here:

### Sub Fix Application

### Vertical Fix Application\*

\*Note: Sub fix handles can replace most vertical fix handles by re-aligning fixing holes.
