## GLASS POOL FENCING

This glass pool fencing system includes gate and hinge panels that are custom made to fit **ProtectorAL** glass hinges and latches, making alignment and gate fitting quick and easy.

Install using spigots to provide a quality frameless glass pool fence with unobstructed views. Alternatively, install with posts for a semi-frameless glass pool fence that provides a premium look on a budget.

A wide range of accessories are also available to complete your fencing, including:

- Chisel, face mount and core drill spigots
- Friction fit clamps
- Friction fit handrail system including joiners, wall mounts and end caps
- All available in black, white or polished stainless steel
- Glass available in widths from 200mm to 2000mm

### SPECS

- 12mm and 8mm Grade A Toughened Safety Glass (AS 2208/NZS 4223.3)
- Mechanically polished edges
- Rounded corners for safety

## STEEL BOUNDARY FENCING

**RAPIDFENCE™**

Create a sleek, modern look for any project with the **RapidFence** Steel Fence range. Built with a straightforward design, this fencing system includes self-drilling metal screws for easy and efficient installation. This fencing range uses pre-galvanised and powder coated steel for superior protection with the strength of steel. It is impact resistant, made to withstand Australia's harsh conditions and blends in well with both residential and commercial settings.

The **RapidFence** steel fence range offers a range of profiles to suit any façade:

- Flat Top – minimalist, sleek and contemporary
- Square Tube Picket – a modern design ideal for gardens and pools
- Blade – modern with a vertical blades system
- Blade Picket – a classic picket fence look with the benefits of steel

### SPECS

## ALUMINIUM BOUNDARY FENCING

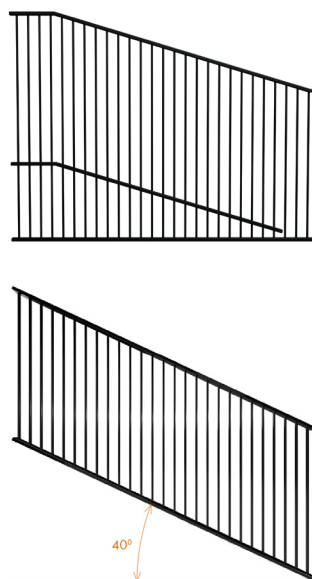

**Protector<sup>AL</sup>**  
More than just fencing.

This product can be custom ordered in a wide variety of sizes, styles or colours to meet your customer's needs. Raked panels are also available to allow for sloping ground and panels, gates, posts and brackets, with hardware and accessories also available to complete the job.

Gate converters have been designed to easily convert a 1200mm high flat top boundary fence panel into a gate, giving you the opportunity to create a custom fitted gate any size up to 2400 wide, simply by cutting the panel to the required size.

Panel brackets are used for attaching fence panels to posts and walls. These brackets are light, strong, and easy to fit, and they allow for some adjustment if your panel is a bit shorter than the gap between the posts.

They also allow for some sideways adjustment if your fence is not in a straight line which is approximately 15 degrees (7.5 degrees each way).

### SPECS

- Wide variety of colours available
- Range of profiles available
- Custom made in Australia
- Standard boundary flat top panels available in 9000 H x 2400 W or 1200H x 2400W

## COMPOSITE ACOUSTIC FENCING

FITTA

**FITTA** Acoustic Fencing is certified to reduce up to 26dB of external noise in accordance with AS/NZS ISO 717.1. The system features a modern aesthetic with recycled wood plastic composite fence panels and aluminium posts and rails.

This fencing is light, quick and easy to install, and is available in kits that build a 2000mm long x 1800mm high acoustic fence. Each kit comes with ten interlocking charcoal fence panels, a 2300mm black aluminium post, 2 black rails and all the required accessories for a standard install.

The square aluminium posts have 3 empty slots for seamless corners. To finish a run, simply add an end post kit. **FITTA** Acoustic Fencing is backed by a 20 year warranty and designed to thrive in the Australian climate with little maintenance.

## SPECS

- Available in kits with charcoal panels, black posts and black rails only
- Post centres measuring 2000mm
- 1800mm machine slotted posts available for retaining wall attachment

## FIBRE CEMENT ACOUSTIC FENCING

The **Quick Built** Modular Sound Barrier Fence System is constructed using an acoustic wall panel system, saving time, money and providing a great looking, durable acoustic barrier fence.

Suitable for both residential and commercial applications, the acoustic wall panels are light enough for 2 people to lift and carry, yet strong enough to be self supporting and not bend or sag. Aluminium posts are available for use in areas that require additional durability, such as coastal regions.

Options available:

- Grandline – 75mm thick panels, masonry style appearance, up to 3000mm high
- Slenderline – 50mm and 75mm panels, sleek fence design, up to 3000mm high
- Slenderline Aluminium – 75mm panels, aesthetic aluminium posts, up to 2400mm high
- Slenderline Folded – 50mm panels, up to 2100mm high

### SPECS

- Typically reduces noise by up to 20dB
- Sound Transmission Class STC 21
- Outdoor Indoor Transmission Class OITC 23

## TIMBER FENCING

Bunnings has a wide range of timber Fencing materials to help you complete your timber fencing jobs.

We source our pickets, available in a range of profiles and species, from many Australian producers that manufacture to suit their local market. In addition to the range available in our warehouses, we have an extended range of styles and sizes available to order, plus posts and plinths to complement the chosen style of fence.

Our paling fencing is also locally produced, typically in treated pine (selected for durability). Our range of available sizes varies by state with a range of lengths available. Similarly, fence posts, rails and plinths come in a range of sizes and lengths with various timber species used.

Bunnings has a zero tolerance approach to illegally logged timber. Our goal is to ensure all timber and wood products supplied to Bunnings originate from legal and well managed forest operations.

We have made significant progress in this area, with more than 99 per cent of our whole timber product now sourced from low risk plantation or other legally verified forest operations. Most of Bunnings' timber products are sourced from independently certified forests or from forests with demonstrated progress towards achieving independent certification.

### SPECS

- Picket lengths available in 900mm, 1200mm, 1500mm and 1800mm
- Forest Stewardship Council® (FSC®) certified
- Programme for the Endorsement of Forest Certification (PEFC) certified

## 358 HI SECURITY/ANTI-CLIMB MESH

Easy and fast to install, **ARC**®'s 358 Security Mesh fencing suits many specialist commercial applications, such as correctional facilities, bridge security, military installations and machine guards. It comes in a black powder coated finish as standard, with a wide variety of colours from the Dulux® Duralloy® powdercoat range allowing you to tailor the product to meet requirements and AS7315 and AAMA 2603 standards.

This product is manufactured in Australia from 100% Australian steel and coated with Zalcote® which has zinc aluminium coating to ASNZS4534 Class W10DZ. Meeting the AS2423-2002 welding standard and made with Onesteel / Infrabuild Wire specification, it has an ultimate tensile strength rating of 500 ~ 625 MPA.

Post and rail systems including a range of security fittings and locks for all applications are available. A range of fence toppings and a standard range of single personnel and vehicle double gates, as well as sliding gates are available. Test data can be supplied by the manufacturer upon request.

### SPECS

- Standard sheets are 2400mm wide and 1800mm to 3600mm high. Line wire centres are 75mm, and mesh apertures are 46mm x 9mm. Non standard sheets available
- Manufactured using 4.00mm Lifemax™ XL Medium Wire, with wire tolerances +/- 0.08mm
- Available in Lifemax™, HDG or Powdercoated finish

## STEEL SECURITY FENCING

Diplomat Fence

Ambassador Fence

**ARC®'s Ambassador™ and Diplomat™** fencing is manufactured in Australia from quality galvanised steel. It suits many commercial applications such as schools, businesses, railways and commercial properties. The product is designed to suit Australia's harsh conditions. It's manufactured and powder coated locally with Dulux® Duralloy® premium powder coating, featuring advanced durable polyester thermosetting powder that meets Australian Standard AS3715.

The standardised panels and gates come in a black powder coated finish. There is also a wide variety of colours from the Dulux® Duralloy® powder coat range to allow you to tailor the product to meet your customer's needs.

### SPECS

- Wide variety of colours available
- Made in Australia from 70% recycled steel
- Ambassador available in heights from 1800mm, 2100mm or 2400mm and widths of 2000mm or 2400mm
- Diplomat available in heights from 1800mm, 2100mm or 2400mm and 2400mm width
- Compliance certificates can be provided

## ALUMINIUM AND STEEL SECURITY FENCING

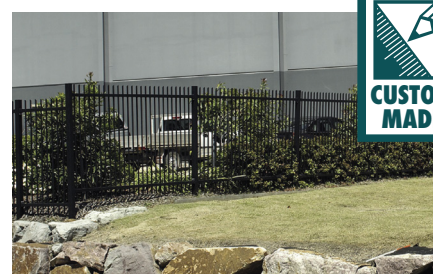

**Protector Aluminium™** offers both steel and aluminium security fencing and gates.

Approved by Department of Education, Training, and Employment (DETE), Aged Care, Childcare Centres, Health and Aquatic and Recreational facilities, the range of security fence panels, posts, pedestrian gates and sliding gates are available to suit your specific requirements.

Both cost effective and strong, the steel range is made from galvanised steel, with silicone bronze welding to prevent rusting on weld locations, then powder coated in black satin, these come in standard heights and widths.

The premium and durable aluminium range is lightweight yet strong and offers superior corrosion resistance and lifespan when compared to steel. The aluminium security panels are powder coated using Interpon™ powder and can be custom made here in Australia, including custom gates, sliding gates, stepped and raked panels.

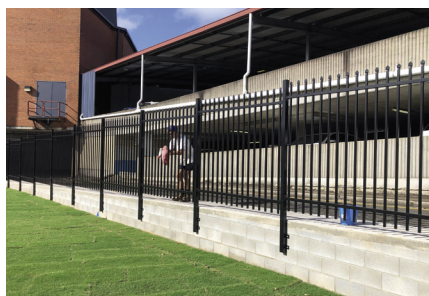

### SPECS

- Wide variety of colours available
- Standard range available in black satin powder coat finish, 1800mm and 2100mm high, with 140mm centres
- Panels and gates consist of 40mm square rails with 25mm square pressed spear top pickets
- Powder coated using Interpon powder
- Custom made in Australia

## CHAIN WIRE SECURITY FENCING

**ARC®**'s chain wire fencing uses long life zinc coated alloy wire and features secure knuckle joints that resist deformation. This versatile product delivers long-term, durable performance and is easy to erect. It has dozens of commercial and rural applications, including schools and playgrounds, sports facilities, boundary, industrial and security fencing and farm and machine guards.

It can be produced using galvanised steel wire or PVC coated wire, with the PVC coating available in black or dark green. It is available in full custom height and aperture options.

The product is designed to suit Australia's conditions and has been made in Australia since the 1930s.

An integrated range of installation and associated fencing products is available, including intermediate and terminal posts, pipe rails and lacing and tie wire.

### SPECS

- Made in Australia from more than 70 percent recycled steel
- Available in widths of 600-3600mm, in increments of 300mm
- Available in rolls of 10, 15 or 20m
- Wire size of 2.50mm or 3.15mm
- Mesh size of 45mm or 50mm
- Engineered to meet Australian standards AS1725-2010
- Compliance certificates can be provided

**O'Briens** Electric Fencing offers an entire range for your electric fencing needs.

With everything from mains, battery and solar powered energiser options to electric fencing posts, reels, cables, strainers, insulators and accessories, the **O'Briens** range offers an easy solution for containing animals, splitting paddocks to manage grazing, or protecting gardens from your pets or wild animals. Easy to install and maintain, the **O'Briens** range is an economical solution for your property.

Simple installation and easy to use fence terminals make the energizer hassle free and quick to install.

**Longyard** Farm Fencing is a range of fencing essentials sourced from leading local and overseas steel mills for when it's time to renew, repair or replace rural fencing.

The range features:

- Black and galvanised "Y" shaped steel posts
- Hinged joint fabricated fencing perfect for fencing runs
- Heavy netting with a reverse twist construction and double selvage wires
- Heavy mesh with a 2.5mm wire
- High tensile barbed wire made to Australian standards
- Soft and medium tensile plain fencing wire made to Australian standards
- Plus, fencing tools like wire spinners
