iF2R

iF2R

PRODUCT DESCRIPTION

A work light can actually be that small! The mini version of our floodlight series provides convenient lighting for tight spaces or for illuminating small areas. Just like its big brother, the iF2R can be positioned in different ways with the base, hook and magnet. The wide floodlight lights up the job site with an output of 200 lumen. And the iF2R is also equipped with a small spotlight to use as a flashlight.
